are soon forgotten.

### Keeping Your Youth

FEW years ago we heard a lot about gland trans-A planting, and the more optimistic were beginning to believe that surgery was at last going to defeat old age and keep mankind young long beyond the span of years alotted by nature. But now it seems that nature has won again and that it is still impossible beat Father Time. The desire to remain young is course to be found in the heart of every normal human being, altho it is generally asserted by the philosophers that old age, with its broad and calm perspective of life has its compensations.

Chemists in a university have announced, after years of study in gland transplanting, that it cannot be done. One expert says, "It is perfectly true that by their cheering throngs, but the prize scholars have ents, Mr. and Mrs. Floyd Greene. a transplanted gland will live for a while but it is to walk alone. equally true that it will not grow or renew its func-

It is evident, however, that if we are to remain young we will have to do it without borrowed glands. A IRPLANES and zeppelins may route new The best way, of course, to assure a long youth is to Hacross the ocean, and bring closer the take care of youth while we have it, to live well ordered between nations, but recently if you happened a display of useless energy and in dissipation.
