because of Improvements in its 60 horsepower ename

smoothness is due to new type rubber mountings which now insulate its engine from the frame, and to a more rigid crankcase which assures more permanent bearing and crankshaft alignment. Then too, smoothness is intensified by the Harmonic Balancer which counteracts torsional crankshaft vibration Finally, Pontiac's basic engine design enables it to develop 60 horsepower at moderate engine speed. No matter how fast or hard you drive, the engine runs smoothly and silently.... In this car you get reliability and long life seldom equalled except in cars of much higher price. Furthermore, you get remarkable economy. Your own good judgment should suggest that you investigate this finer Pontiac.
