SHE MARRIED AHANDSOME YOUNG HUSBAND

but'she lives with a grouchy old stove

TOP and think. How many hours a day do you spend with your kitchen stove?

Why not end that needless drudgery forever? Cook the speedy, modern way, with an electric range. So fast the oven reaches a baking temperature in just a few short minutes. So modern it does the work for you, just like a skillful cook. You put the dinner on, then the automatic oven control sees that the food is deliciously cooked and kept piping hot for the time you want it.

And so inexpensive. You can cook for about a penny a person per meal! For while the price of most necessities has almost doubled your Niagara Hudson electricity costs less today than when Dad and Mother danced the "Polka."
