PUBLISHED WEEKLY By J. HARVEY BACKUS & SON OUR KEYNOTE:

"If There Is Not A Way, Cut A Way" Congress, at the Postoffice at Andover, N. Y.

An Annual Disease

be epidemic in this vicinity. Symptoms are restlessness and a "far-away" look 000,000 American automobiles.

unfaliing sign that the afflicted one is in the last stages reat industrial undertakings. and is on the verge of "succumbing."

imagination centers and causes them to expand to such and war. a degree that a dollar bill looks like a ten when the "patient" leaves home. It all but paralyzes the muscles of the body and all control over them is lost. Advance reports from the lake regions, wooded lad luck. places, fishing grounds and mountain resorts are to the effect that the malady is much more serious and

far reaching this season than ever before in the history of the world. Once the "patient" is thoroly under the influence of N less he kept abreast with new products and the prothe ailment, it is impossible to predict with any degree gress of new devices and money-saving merchandise. of accuracy what turn the disease will take.

A study of "vacationitis" cases thru a long period with the times." of years by students of the disease reveals that few if any ever recover completely. Once one is infected, he for the home. They can always do their work more is almost certain to have it annually about this season. effectively by knowing of new articles that save money The most serious after effect is the flattening of and time, that add new ease to life. the bank role. The "patient" recovers from all save this. It is lasting and hangs on forever.

They used to ring the curfew back in the olden has been tested and has proved to be in the public's! days, but now it is just at the time that the youngsters avor. are starting out.

Home Accident Hazards

HE American home presents many risks for insurance companies, according to a report of a large concern that has tabulated details in connection with women shapeless. Probably the nurse dropped him payment of accident claims. The bathtub is more on his head when he was a baby. deadly than getting in or out of bed, and even the latter is more dangerous than occupying a step on the supposedly hazardous step ladder.

portedly dangerous step-ladder.

mild sports of fishing, golf, gymnasium exercising, with excreta from the bodies of others. tennis and squash during the year than in the more There is an erroneous idea that water in a stream strenuous game of football. In fact, the gridiron sport will purify itself under all conditions in traveling a is among the lowest of all recreations charged with ertain distance. Many conditions enter into the saferesponsibility for accidents, being blamed for only 132 ty factor here. The safe course is to insist upon bacinjuries, while fishing is blamed for 143; golf, 431; teriological examinations. Swimming pools are often gymnasium exercising, 319; tennis and squash, 340; the source of infections, and public authorities should bathing and swimming, 376; baseball, 634; and bas-lake every precaution to minimize the dangers. ketball, 311

The fallacy in such a conclusion regarding the John D. may have made his first dollar by selling harmlessness of football in relation to other sports, a flock of geese, such as historians have stated, but any however, it was pointed out by company officials, lies motorist can tell you where he picked up his last twoin the fact that the analysis is based upon claims only hits. of "preferred" risks such as professional men and those in similar walks of life who are more likely to be found on the quiet banks of some river, on the golf! links or on the tennis courts rather than on the football gridiron.

punished, the vengeance of the law will not bring back roads is an important feature, particularly the addition the little life that might have been spared, had more of shoulders on paved highways. care been exercised.
