The lowest-priced Gas Refrigerator

frozen desserts, perfect food preser- again. vation—all this at the cost of a few pennies a day. This refrigerator has a lower operating cost than any only half as much as what you now probably pay for ice.

The reason is simple gas and water are relatively cheap, and Electrolux freezes with a tiny gas shame and a little trickle of water.

Absolutely Noiseless

There is no machinery, no moving parts at all to make the slightest sound. Electrolux is noiseless when you buy it, and forever after. With no machinery to stop and start, the cold is constant and the temperature varies scarcely at all from the ideal food-preservation point. That's why, too, you always have plenty of ice cubes on hand.

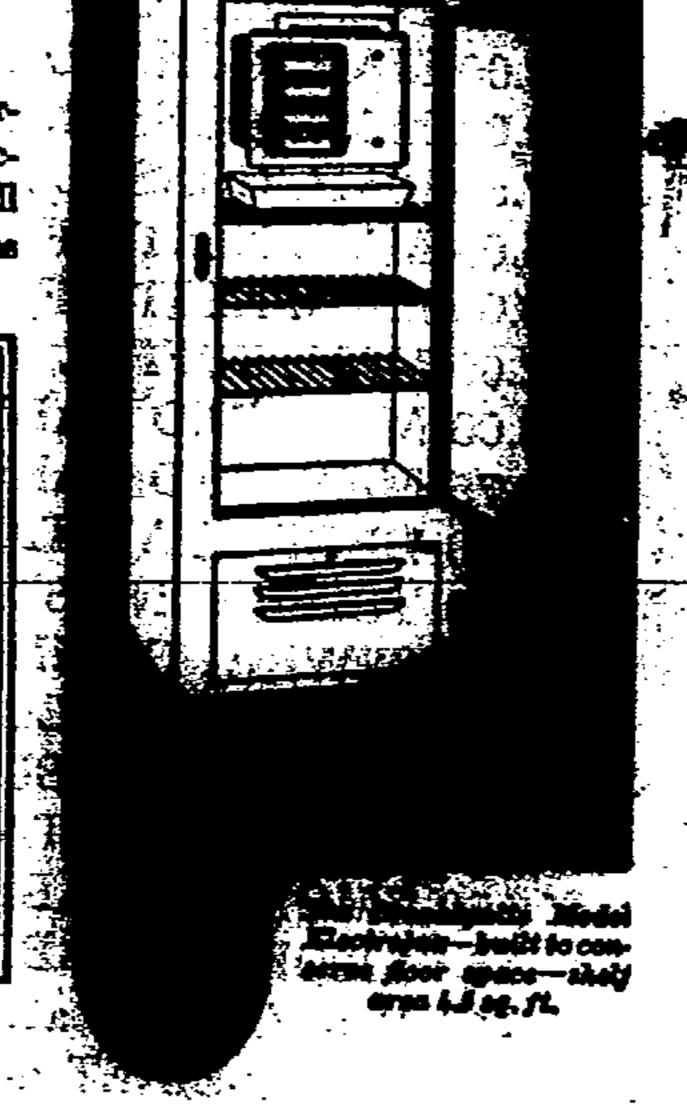

Furthermore, there is nothing about an Electrolux to require "your attention. There is nothing to wear out or replace. The refrigerant is hermetically scaled inside a rigid one-piece steel unit and

▲ 700'LL agree with us when never needs renewal. Even the to pay the balance. Be sure to stop you see this refrigerator that tiny gas flame is safeguarded by an in at our display room and see this you cannot afford to be automatic shutoff. Should the without an Electrolux at this price. flame ever go out for any reason, Pure sparkling ice cubes, delicions no gas can flow until you light it

> Liberal Purchase Terms Best of all, with our liberal purchase plan you can have this Electrolux in your kitchen for a small down payment with many months

> > QUICK FACTS! 1. Permanently noiseless. 2. Absolutely safe. 3. Only a few cents a day

5. No mechanism to weer. to vibrate, to need oil 6. Free from trouble. 7. Perpetual, steady cold. 8. Plenty of pure les cubes. 9. Tested and endorsed by national authorities
