That Holds the Inside Track

Around the turn and into the home stretch they race, with one horse almost certain to win. That horse is the one that is next to the rail. I' has yards less to travel—it holds "the inside track" to victory.

In the struggle for superlative qual. ity in motor oils, certain oils hold the inside track from the start. They are the oils that are made from the finest crude—the oils that are refined entirely from Pure Pennsylvania Grade Crude! For important as careful refining is to the quality of the finished oil, you must have quality material to begin with. Good oils can be made only from good material—the finest oils can be made only from the finest crude!

PENNSYLVANIA GRADE CRUDE is the best start a motor oil can

Mother Nature did not make all crude oils equal in quality, any more than she made all diamonds of the same size and becaty. To one grade -Pennsylvania Grade Crade Moth. er Nature gave characteristics which she denied to other crude pils. She gave it a degree of "oilness" matchin no other crude

Refiners of Pennsylvania Grade Crude have made the most of this advantage in quality. With careful refining they have produced finished oils that are known the world over for their long life, their stubborn resistance to heat. Every day, there oils prove their superiority in the toughest lubricating tasks-in automobile, sirplane, tractor and motorboat engines, in locamotives, turbines and stationary machinery.

Try thete oils in your own carl You'll get many more miles of superter picton seal, give greater power. roduce distint minimire garoline by every test
