The 70,000 brook trout, all reared in the rearing station of the club at the Water & Light plant, are now being planted in the streams. They run from five inches in size to six in some instances. After Mr. Sortore had discovered the fire he also noticed that a window had been broken on the south side of the barn, that a gate had been used for a ladder to enter the building. ## If baby has COLIC

ACRY in the night. Colic! No cause for alarm if Castoria is handy. This pure vegetable preparation brings quick comfort, and can never harm. It is the sensible thing when children are ailing. Whether it's the stomach, or the little bowels; colic or constipation, or diarrhea. When tiny tongues are coated, or the breath is bad. Whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it safe for frequent use. And a more liberal dose of Castoria is always better for growing children than strong medicine meant only for adult use.

## DO YOU REMEMBER?

By Thomas Haynes Bayly

Do you remember when you heard My lips breathe love's first faltering word? You do, sweet—don't you? When, having wandered 'til the day, Linked arm in arm, I dared to say, "You'll love me sweet—won't you?" And when you blushed and could not speak, I fondly kissed your glowing cheek, Did that affront you? Oh, surely not—your eye expressed No wrath—but said, perhaps in jest, "You'll love me—won't you?" I'm sure my eyes replied "I will." And you believe that question still, You do, sweet—don't you? Yes, yes! when age has made our eyes Unfit for questions or replies, You'll love me—won't you?
