Looking Ahead

D. BAKER hands us the following tersely-put analy-L sis of present day conditions. It is from a price list impulse can travel around the world in one-seventh of C. A. Turner of Pittsburgh and there is much more a second, and news can be transmitted almost truth than poetry in it:

There is nothing to justify a belief that business will improve in the near future. After a struggle to world, but the press will always be the big power had to yield and a ten per cent. reduction was announc-imen, and for the big events of news. and it is natural to expect that this is but the begin-|above that of kings. Even the radio is under him. ning of a series of wage reductions. Foreign countries have raised tariff walls against our products so high that our leading industrialists have been building plants our exports are less than our imports.

every state and municipality is also spending more than be distributed as they would wish. taxes. The bright spot in the outlook is reduced inven-idence to recognize the uncertainty of life. tories in almost every line. When the turn comes a buying movement of large dimensions is sure. Until, that time arrives a hand-to-mouth policy seems heet.

Poor Roads Expensive

DECENTLY conducted experiments show that bad in general. I roads cost the motorist the equivalent of a tax of 22.3 cents on every gallon of gasoline used. This fig- a thing not to be "put off." ure is reached by the assumption that a car makes ten miles to the gallon on poor roads. in several states showed the cost of gasoline and tires dodge the rolling pin.

per thousand miles over a rough road used in the experiments was \$35.10 for an average four-cylinder car loaded. The cost for the same car running at the same far as newspapers are concerned we have been. speed over a smooth highway was shown to be only in the copper age for some time.

What better argument can there be for improving highways as fast as funds can be made available? Road down that there's something worse coming.

insforming thousands of miles of unsatisfactory road mer'ern serviceable highways.

Is Still Supreme

ewspapers in all parts of the country.

Marconi, radio wizard, gives newspapers prefer-church service. 50 ence over radio, and expresses the opinion of people today, when he says: "The newspaper has this dictinct advantage: It is a record. You cannot paste

|radio announcements in a scrap book; newspapers pu the news down in black and white." "Of course, the radio has its advantages. A radio

stantly," he said. Newspapers cannot give musical programs to the maintain wages, our great industrial executives finally the world for expressing opinion by rulers and states and evening.

being paid 40c per hour as against 20c per hour in the press is original and constructive instead of being Miss Inez Youmans. 1915 and wages in this country are still from two to largely a repeating agency. The newspaperman who ten times as much as is paid in Europe for similar work respects and lives up to his privileges has a power
