## Free

## Attractive Prices

We are constantly combing the markets for staple goods at low prices. We find very often that wholesalers and manufacturers have over stocks and odd lots of perfectly good merchandise that they are willing to sell very cheap for cash.

Here are a few items that we offer you subject to stock on hand and at prices that we shall probably not be able to duplicate often:

SUNBEAM ELECTRIC HEATER for health treatments, concentrates the heat exactly where you want it, \$8.75 is the usual low price on this item. Our offer \$5.95.

CHRONUM NICKEL ELECTRIC SAD IRONS—fully guaranteed—\$1.75.

SELF-WRINGING MOP with detachable woven cotton head, at last for 50c; always a dollar item.

CEZ 3-MANTLE GAS LIGHTS with Shade, rim, by-pass and mantles complete \$1.50. This may be the last chance to buy this light.

THERMETAL THERMOMETERS—Neat and accurate, no glass to break, no liquid to searate but a scientific instrument that is easy to read and will last a life time. Price 85c.

CUTTING PLIERS—Parall jaws with a compound lever action that makes wire cutting easy. A style of plier that sells regularly at \$1.25; a favorable purchase allows a resale price of 65 cents.

Eggs by parcel post if you wish. We have a stock of SHIPPING CASES capacity three dozen, selling at three for a quarter. They are strongly made and will carry contents safely.

It's Your Money

You have a perfect right to spend it as you choose but take this tip: Totem Anti-Freeze will give you car absolute protection at one-half the cost of any other preparation that will afford you equal safety, and your radiator will come thru as clean as when new.

The price is \$1.10 per gallon; add one-third its volume of water and you will have a mixture that will not freeze at 20 degrees below zero—and besides you can draw out and use again.

Illiteracy is deplorable, but it is not as bad as being able to read everything and believing it all.
