### Christmas Gifts

A big problem with many people for the next two weeks, and no matter whether we have little or much money to spend it is still a perplexing task.

Now, we want to help you and we have the means; no other place of business offers you so fruitful a selection of pleasing and useful gifts as the up-to-date hardware store, in tools, cutlery, sleds, skis, skates, sporting goods, house furnishings and electric utilities alone. We check up more than one thousand items.

We can't begin to give you a complete list, that would take the entire space of this complete paper. We can only offer a few leading suggestions.

Gifts for Men and Boys from the Tool Department:

Adjustable Wrenches, Pipe Wrenches, Radio, Tractor, Automobile and Machinists' Wrench Sets, priced from 15 cents to \$3.50.

In Pliers and Pinchers, we have more than 50 different styles and sizes to meet the need of every situation. Small, medium and large Pliers; plain finished or highly nickled; cheap, middle priced or the highest quality — and priced accordingly.

You can buy Pliers here for 10c or you can pay \$2.50 and every one worth the price.

Saws offer an equally broad field for selection. Coping Saws, Hand Saws, Compass Saws, Back Saws, Hack Saws, Meat Saws, Circular, Cross Cut and Buck Saws — here also the price starts at a dime and goes up as far as you wish.

Then there are edged tools such as Chisels, Hatchets, Axes, Hunting Knives, Pocket Knives, Shears, Razors, Snips, Pruners, Planes and Clippers, all are most useful, attractive and appropriate holiday gifts at prices to fit every purse.

### Hot Water

And plenty of it if you have an Angmore Circulating Heater.

A torch or burner on a hot water boiler will fail to furnish hot water as needed and they are hard on the boiler.

Angmore's are substantial, efficient and easy on the gas, while the price is amazingly low.

Let us figure the change for you.

### Gifts Fitting

To the ladies of the household, and equally appropriate for all ages and occupations are here for your inspection and selection. If you wish we call your particular attention to our showing of Lamps, the styles will please you and the prices will suit you. The famous Aladdin, both oil burning and electric, are included in this department, also floor Lamps at 98c and large showy Table Lamps at \$2.19.

We are always glad to have you browse round our place — the welcome sign is out for you everywhere — there is no restricted space.

### Tree Lights

For use inside or out; fitted with 9 1/4 c. p. 120 volt lamps, each lamp lights by itself, has bakelite sockets and weather proof cords. Complete Set, \$1.48. We also have extra bulbs for both indoor and outdoor sets.

### Window Glass

We carry a large line of sizes of the celebrated Libbey Owens flat drawn glass; free from checks, specks and waves. Cuts easier and will withstand severe shocks better than other makes while the price is no higher.

### Chamois Skins

Large enough for table covers or to line a coat, great big fellows twice as large as we have ever offered before. Price \$1.75.

### Cello Glass

Light in, cold out; put on with tacks; flexible and will last for years. You may dread to put in glass if so use Cello Glass — 13 1/2 c a square foot.

### Thermometers

Accurate, distance reading, silvered face — 35c.

### Adjustable Wrenches

Not Crescent but similar and just as strong and handy; light enough to carry in your pocket and head is set at the right angle to fit most nuts on your implements. Special price on 8-inch — 69c.

The meanest thing you can do to a woman is to will her a fortune payable at the age of 40.
