### ANDOVER NEWS

PUBLISHED WEEKLY By J. HARVEY BACKUS & SON OUR KEYNOTE:

"If There Is Not A Way, Cut A Way"

### People and the Press

are largely responsible for creating this high standard. city the greater the nuisance, and the more room for I'eople today are living in an era when almost noise abatement. everyone you meet is a chronic kicker about something

that might be advocated. A noted editor places this blame, in a measure, right back upon the people, declaring that "the thing a competitor of alarm clock makers. always forgotten by the closest critic of the newspapers is that they must be immeasurably what their au-

There is food for considerable thought here. course, in the great cities there are different kinds of newspapers, conservative journals, progressive journals and yellow journals, each with a particular field to cover. But if it is true that newspapers are what their t readers make them, then there is much to be said for the reading public in our smaller communities. For in these communities there is little in the way of yellow journalism and journalistic sensationalism. The small THE American people have one distinct and besetting the reason that the people in these soundly American other nation of people on the face of the globe. they get a newspaper from the metropolitan field. pretty sound public.

they would all be empty.

# We Must Know Our

Community

ally be found open. optimistic viewpoint. The plain course for every loyal citizen, then, is te place his heart in his home community and work

You can't be loyal to home and still think that some other place is a better place to live. You can't be loyal to the interests of this con

munity and have your heart elsewhere. You must be convinced in your own mind that the come out on top and ahead of the rest. place where you live is the best place on earth to live else you will never be able to convince anyone else of in our words and actions—the speed throttle and brake to suit all ages. the fact.

call home, you must know all of its good points and and effect with respect to the second, minutes, all of its advantages. Only well informed citizens are good citizens and

about your county. First get the facts, then go out and tell others.

The clerk who says "Thank you" after selling you in our vision of the past and promotes success in life. a postage stamp, deserves a raise in salary.

### Our Changing Diet

THE prediction, unfavorably received, that human beings will some day change from omnivores fact, there have been peoples in the past who thrived A far off when we can climb in an airplane and circle Church School, 11:45. now, scattered thru the world.

Ancient Egyptians of certains epochs lived exclu-community. sively on grain. The ancient Greeks at the height of dried and ground into a sort of flour. And, of course, to see even wider and broader jumps.

The trouble with the last two of the vegetable diets average person is not much concerned in jumping Methodist church Sunday evening, named is obvious. They are not balanced. The neces- across the continent over night, sary protein is lacking. Any race that eats rice or chestnuts exclusively never will dominate the world. They need foods rich in proteins, and meats are among is to place a ten penny nail in the jar and leave it for these. But now Dr. David Wesson, of New York, of a day. If the nail comes out rusty, the liquor is fit fers 1,500 chemists attending their society's annual drink. If it becomes bent in the middle, you had bet convention cotton sandwiches.

He has made a food, rich in the proteins of meat, from cotton seed. Dr. Wesson says this cotton seed protein can be made into a synthetic meat for five cents tions concerning hunting and fishing licenses, we have a pound. And it tastes good. Perhaps cotton seed will discovered at least that one doesn't have to have a make vegetarians of us all.

Probably one-half of the mileage on an automobile is run up while looking for a place to park.

#### The Logical Medium

'TIVE merchants advertise because they want the peoespecially when bargains are offered.

People read the advertisements because they want shows that some people never get enough fighting. to know what they can buy to advantage, and this can be determined only by knowing what the merchants have to offer.

The logical paper is the logical medium between color scheme. the buyer and seller. It is the means whereby the talks to his customers. He can't call them individually, so he speaks to them collectively. The one should use it and the other should read it, men who are rich.

### Tolerating Noise

ABOLITION of unnecessary noises is the formidable A task taken upon itself by a special committee of ne American Society of Engineers. The committee Ham may have upon humanity

1.00 necessarily mean that health does not suffer or that

Perhaps within a few years municipalities will! have noise inspectors, just as they already have smoke inspectors. One lends itself to control no less than the THE smaller newspapers of this country form the other. There is no community, however small, in which backbone of American journalism and their readers unnecessary noises can not be found, but the larger the

or other. It might be termed as an era of criticism work are the principal offenders, and all of these make with fault finding being an epidemic stage. Newspa- more noise than necessary. Hasn't the factory whistle pers are also getting their share of the kicks for the become more a custom than a necessity? When watches kind of news they print, editorial and other policies and clocks were luxuries beyond the reach of the factory worker the morning whistles were indispensable. Today they are little more than a waste of steam and

Just to co-operate with the engineers' society some representative community should volunteer to observe "Noiseless Week." One week of quiet (as near 'weeks" now set apart for community observance.

There is one thing about it, few persons ever get be a pallbearer to their bootlegger.

### While We Live, Live Well

city and country newspapers are remarkably free from L peculiarity. They think today and forget tomorthe taint, and little of it comes in from the outside for row. In this respect they probably are unlike any service. communities prefer the less sensational journals when demonstrate the force of this statement you have but to glance at the pages of any of the great papers of If the smaller newspapers of the country are what the country. A sensation will be sprung today and i their public makes them, then they are appealing to a will be blazoned in big type over the first pages of the press. Unless its importance is of tremendous magnitude tomorrow will find it relegated to an obscure cor ing and slimy with scandal. It holds the public eye and get into it? The Pastor's sermon

is played up to the limit. Dum Vidimus, Vidamus,"---"While we live, let us live well," was the epigram of the old Romans who knew the true art of living. How true also is this epi-

al and moral development. If more people today practiced the old theory of alty and helpfulness given him dur-Where your heart is, you have nothing but an be far less cause for the front page streamers of glar- Year be a year of blessings and ing headlines that call attention to the crimes.

No matter how poor a person's credit may be, he for it and boost for it with all of his energy and abil-can always borrow trouble.
