BAKERS' STORE NEWS

Published by Baker Bros. Hardware, Andover, N. Y.

This date is the Twenty-fifth Anniversary of the firm of Baker Bros. a quarter of a century we have in doing our utmost to serve this community acceptably with Hardware and its kindred lines. The passage and co-operation that we have given us we like to feel is to a large extent the measure of how well we have handled our job. We are profoundly grateful for the evidence we have of your appreciation and good will. We wish to continue in gratifying relation and promise you that in every dealing we strive with determined intent, with our best intelligence and with our strongest integrity to continue to give you a quality of service equal in measure to your confidence.

Heap Cuts
Some meats are cheap because ordinary cooking methods do not render them easy to eat. Here is where Waterless cookery is at its best. It breaks down tough fibers and releases juices that other methods evaporate. Waterless Cookers save fuel because the whole meal is prepared with a slow fire over one burner. We sell these Cookers from \$1.00.

Lean Milk
Is possible only when properly filtered. Atlantic is now furnishing with the new high speed filtering process in the large size at 40 cents per hundred. Maybe your present method of straining for your milk is slow and unsatisfactory—if so, try the high speed way, the difference may be a revelation.

Legal
The new Safety Razor. All in one piece. You will want to own it for its novelty and besides it will give you a comfortable shave. Gold plated, comes put up with en double edge blades and sells for \$1.00.

Profit by Example
"Pa, did you go to Sunday School then you were a boy?"
"Yes, my son, I always went to Sunday School."
"Well, dad, I think I'll quit going. It ain't doing me any good either."

Don't Forget
Our urgent invitation to come to our Painting Party next week Wednesday and Thursday, January 20th and 21st. At that time Anabel Graham who is an expert paint demonstrator and interior decorator will be here to tell you and show you, the things you will be glad to know about proper coloring and handling of all sorts of paint, enamel and varnishing material. This is not a paint sale but a painting school. You don't have to buy anything, you don't have to spend any money unless you wish. We shall offer a 45 cent can of Utilac and a Brush that sells for 20 cents—both for 25 cents during the demonstration, but you buy it or not as you please. The lily needs no paint to make it beautiful, but there are many places and numerous articles about your home that await only a touch of color to vastly improve their appearance. Another good reason why this Painting School should be of particular interest is—there is a newogue in colors and you will want to know what is correct for 1932! Don't forget the dates—January 20th and 21st.

Good Glass
Many people seem to think that one light of window glass is as good as another; but we have found out by actual checkup and experience that there is as much difference as in other products. Libben Owens Ford Glass is outstanding in quality, it will stand more shock, it cuts easier and it is perfectly flat so it will glaze either side out. Bring your sash to us for refills. We put in Libbey-Owens Ford Glass and give you a first class job.

Can You Beat It?
We think not. Gray Lawn Louse Chase has no equal as a real and dependable louse killer. Your money all back if it fails.
"Oh, captain," said the hardware man walking into the police station, "I've found the wallet I reported lost."
Police Captain: "Too late, sir. We've caught the thief."
