EVERY STATE, PARTICIPATE IN NINE MONTH. These points should be emphasized with respect to the Celebration of the Two Hundredth Anniversary of the Birth of George.

Washington this year: 1.--It is sponsored by the United States Government: Congress created the United States George Washington Bicentennial Commislibrary Wednesday evening, January over patrons the very best in talksion and the President of the United States is its chairman. 2.—It will not be a world's fair or exposition, and it will not

be held in any one place.

3.-It will be a nation-wide, even a world-wide series of celebrations in which every state, city and town—every organization with Americans and others in many foreign countries, will participate. Every community is expected to plan and carry out its own program of events, in co-operation with the United States Commission and the State Commissions.

4 .-- It will last from Washington's Birthday, February 22, 1932, to Thanksgiving Day, November 24, 1932, with special local and national celebrations everywhere on all holidays, anniversaries, or other days which can be connected with the life of Georg Wash-

5.-While the ceremonies on February 22 should be especially elaborate and impressive, as marking the actual Two Hundredth Anniversary of George Washington's Birth, arrangements also should be made for public gatherings, pageants, plays, processions, musical festivals, tableaux and other events at various times during the entire period of more than nine months. Every program should relate to the great life and work of the First President and Founder of the Republic. On Memorial Day, Independence Day, Labor Day, Thanksgiving Day and other national and local holidays or anniversaries there should be special programs, but the celebration should not be confined to these days.

7.—All organizations and institutions of whatever character—
