BAKERS' STORE NEWS

Published by Baker Bros. Hardware, Andover, N. Y.

Old Lady (visiting prison): "Nevinding, my friend, life is uncertain way. We are here today and tomorrow." "Well, lady, you are to be gone tomorrow, but I'll be here."

Tool Supplies

We have some very good values school supplies every day but for short time we offer three regular oil tablets and good lead pencil a metal ferrule and eraser for cents. We expect this price will clear our stock very rapidly.

If Season

Just ahead when you will need few extra feeding pails. We sell galvanized Pails that are better than ordinary at low prices all the time—but we offer you an extra large Saturday for cash only: 10 qt. Galvanized Pails 17c—3 for 42c or 14 quart at 21c or 3 for 42c.

Enamel

Certainly the finest of all quick-drying Enamels. It flows as easily as oil paint, it covers better than its lead, made in clear, five natural wood shades, and 18 colors, also blending you may get any color desired. Colors that are permanent, beautiful, lay on as smooth as a bill of Celluloid and will improve with wear and washing. Prices are reduced also and the Moore Co. are doing everything possible to make it easy for you to obtain and use this wonderful Enamel and finishes.

Sharpen Up

There are more things than wit that are better for being sharp. Consider the much abused kitchen tery. Give it a few pats occasionally with a Carborundum Sharpener Stone and see how much easier makes the day. Carborundums 20c and up.

Top Kicking

About the quality of the putty you buy. Let us furnish you a white sealed can of Pure White Putty, the price is 15c and if you don't please you, kick to us and we will see about it.

What About It?

If you are one of those fellows to whom all clover seed looks alike its pretty near time to look into the matter; you may find there is as much real difference as there is between white and black.

Why do some of these hills around Andover grow so much better potatoes than others? Why do some grow white sprouts best while the others demand blue sprouts to give their best?

All a matter of breeding and soil. Same way with Clover Seed, locality of origin is very important, a Clover grown year after year on deep rich soil develops a big bundle of roots; those from one plant often filling a half bushel measure, while plants in shallow, sandy or thin soil do very well if their roots fill a tea cup.

Which do you wish to use? There will be a little difference in price—there will be a vast difference in soil building, ability to stand hard winters and feeding value of crop.

Say, Boys

Marble Season is here—you ought to see the big bag of Glassies that we are handing out for a dime.

Dirty Corners

You may clean as carefully as you please, and still find a smutty spot at stair corners; no one has yet found a brush, broom or duster that will reach into that double angle and pick out the muss.

But there is a way—Fill in with Townsends metal stair corners, they seal the depression and take the catch out of the dust catcher.

They come in a choice of finishes, are held in place by their own elasticity and pushed there by a tool we lend you for the purpose.

Once fitted the job is permanent, anyone can do it, and the cost is only a nickel a corner.

Ask us for a demonstration; once you are fitted you would not have them removed for ten times the cost.

Ebenezer: "What foh-am dem bed. springs on 'dat stove, jes tell me 'dat?"
