BAKERS' STORE NEWS

Published by Baker Bros. Hardware, Andover, N. Y.

Notice: "I hear Mary finally consented to marry Sam Sapleigh." Signes: "Yes, she found out he belonged to a Christmas savings club."

Local News

Once in a while there comes along cheerful news for the farmer. The prices are out on Binding line and it is cheap compared with the ruling for several years past. We also advise you to be sure you get right prices on timothy and clover seed. They are priced much lower than for many years.

Chicken Business

Once looked upon as a method of feeding for a few groceries and doing to the variety of food supplies come to rank as a large national industry. If you will study successful poultry husbandry, we believe you will find the brooding of young chicks a very important part of providing a long laying stock at low cost. Don't let your young chicks shiver and turn them loose in an automatic gas burning Brooder, and see them thrive. If you don't have gas, automatic Brooders will handle coal perfectly.

Copper Ware

If made by the Rome B. & C. Co. they are always regarded by those who know, as being a bit better in material than most other makes. Tea Kettles from Rome have always been good and now they are also cheap. An all copper nickle plated kettle from Rome Bros. at \$1.60.

Mirro Aluminum

The kitchen ware that has stood the test of time and is more desired and admired than any similar product. We like to sell it because we know there is nothing we can offer our friends that will equal it in service and satisfaction. If you don't know Mirro beauty and quality we will make it easy for you to become acquainted by offering a limited number of Mirro Aluminum Layer Cake Fans, the regular 50 cent size and quality at 29c.

"And has he proposed to you yet?"
 "Not yet, Alice, but his voice has such an engagement ring in it."

In spite of all these expert predictions that business will get better—it will.

Next Week

The Hardware Dealers of New York State are holding a convention and hardware exposition in Madison Square Garden, New York City. At this exposition we expect there will be offered some wonderfully low prices to those who are able to pay cash for their purchases. Our buyer will be there for the whole week, combing the markets for unusual values, and later we expect to have some sensational bargains for your consideration. Watch for the news in this space.

Silver Cleaning

Very easy if you have the right equipment. Let us furnish you an outfit that will clean silver without wear or labor and last a life time for only 29c.

The Seed Question

Now open for discussion, and you who have seed to do this coming spring season will save money by being posted on quantities and values. Many large distributors are loaded up with seed that has cost them prices away in advance of today's market and they are using every trick known to the trade to unload at a profit.

There is always an abundance of cheap low grade Timothy and Clover Seed; there is never an over supply of strictly top grade, so look closely to quality and be sure you know where you grow.

Your state laws give you some protection, but you should also use caution and your best judgment and be sure to buy of a dealer who will not fail on delivery.

We are equipped with what is usually two years' supply, we believe seed will be much higher in May, 1932, and still higher in the seedling season of 1933.

If you want to know why we believe seed prices are too low we shall be glad to tell you.

Ma: "Aren't we going to let Johnny take saxophone lessons?"
 Pa: "Not while I own the adjoining houses."
