BAKERS' STORE NEWS

Mickey: "What does it cost to see him?"

The Bottom is Out

Stove prices are down on a level with 25 cent potatoes, 15 cent eggs, 20 cent butter and \$1.00 milk. Today you may purchase a really good modern gas range as low as \$27 at the factory cash with order.

This range is equal in quality and more modern in style and construction than ranges selling at \$60 three years ago.

Gas table top ranges of the better grades have also suffered equal decline in prices, and we now offer a full enameled table top gas range equipped with oven heat control, at \$49.50 cash, or at a slightly higher price on the monthly payment plan.

Old gas burners are gas wasters. Pay for a new Range with what you save on gas bills.

Lower Lights

The average parlor match is a dangerous thing to have around the house. Millions of dollars worth of property goes up in smoke every year by accidental match fires, to say nothing of burned fingers, holes in clothing and danger of life from the ignition of flimsy clothing.

In winter time especially when a home fire means unusual suffering why not avoid this hazard by using Safety Matches—they are safe and we offer you three dozen boxes for 20c.

Lion Toilet Tissue

The best and most economical for you to use. It is tough, sanitary, has a perforation that allows it to tear easily without litter; it also has that important quality of being completely soluble so it will not clog drain pipes.

Made to sell two for a quarter, but we offer it always at 10 cents straight.

Try it on our money-back guarantee that it will reduce your toilet paper expense and increase your satisfaction.

Squire Perkins: "Well, after I die, I wish you would marry Deacon Brown."
Nell: "Why so, Hiram?"
Squire: "Well, the deacon trimmed me on a horse trade once."

Common Colds

Very inconvenient, very undermining to general health and the basic cause of much general ill health.

From experience and observation we have developed a strong conviction that most of the liability of taking colds are due to improper protection of feet, very many dangers of serious illness come from wet or poorly protected feet.

So why take chances when you may so easily water-proof your footwear? Boots have to be pretty far gone when an application of "Neatslene" on the uppers and a pair of "Cement-on-Soles" won't make them dry, warm and comfortable.

The expense of grease and soles is very little and you can do all the work yourself.

Give the whole family dry feet. "Neatslene," large package 25c. "Cement-on's" 50c a pair complete.

Team Harness

Poor old Dobbin hasn't had a new dress in years. A few worn straps, beautifully embroidered with hay wire and bag strings, are all that remains of her one-time well appointed wardrobe.

Now that prices are deflated and styles established, why not a new outfit from bridle to five-ring hip straps, brass hame balls and all the other trimmings?

You will be surprised how much smoother and easier the spring work will move if the horse power is equipped in a manner that will generate self-respect and demand respect, all of which we offer you at \$53.75.

If you are not just ready to buy, put this matter away in your mind for future reference, it may be to your advantage later.

Red Polish

There is no particular merit in the color but it is easy to remember and you may be sure you have the right article.

Pioneer Red Cedar Oil Polish is a good article for home use on wood work, floors and furniture. We use it ourselves and like it.
A full quart bottle for only 79c.
