Are we as a people no better than the hog, or will we profit by the experience of those who make it the mistake of placing self above service and failed? A puncture is a little hole found in auto tires at

the most inconvenient spot along the highway.

## Our Migratory Birds

MOBINS and English sparrows are the most common ers, sportamen, and game officials are all pretty much of the proceding day's toil." agreed in the desire to protect all the useful species of laws that will command respect.

Every state has laws to protect its fish and game. There is a Federal or Government act, known as the migratory bird law. Twenty-one states help to enforce this Federal law which reduces the "bag limits," or the

amount of birds that may be killed by hunters. A man in a nearby state has edited a weekly paper for 50 years. The rest of the profession wonders how

he made a living.

#### Looking at Pictures

EVIDENCE that the average high school student depends more upon news pictures than upon reading part of the citizens to improve conditions in this refor his knowledge of current affairs is contained in the spect. completed tabulation of 3,100 uniform examination papers from schools in all parts of the country.

questions on farm relief and other political topics were able to give an approximate interpretation of cartoons bearing on the same subjects. Many who displayed a questions were only written were able to identify foreign scenes in photographs.

ures indicated that President Hoover's is the face best most common characteristics of such lawless construcknown to the school boy or girl, altho an occasional tion are the massing of wooden buildings, sometimes student was unable to identify even the chief executive. Thomas Edison and John D. Rockefeller were and frequently adorned with all their attendant strucin second and third places among those most easily tural defects, all favorable to easy ignition and rapid identified. Mussolini is more widely known in America fire destruction. than such native figures as Owen D. Young, the late Senator Morrow or former Secretary of State Kellogg. the test showed. Mable Walker Willebrandt, the only you can eat all the things you want without becoming woman in the group, was identified by less than 20 per fatter. cent. of the students. Frequently she was mistaken for Helen Wills, and occasionally for Mrs. Gann.

The photographic tests also indicate that the city student, who has access to the more profusely illustrated metropolitan newspapers, has an advantage over the farm or small town child in this respect. In answering the written questions, however, the averages of rural and urban groups were about the same.

#### Brightening Skies

mittee on hoarding reports. The procession of failing prison several times. She now lives quietly in Eng. a European twist and called it "Soobanks has about come to an end. Don't try to run your car without giving it proper attention. The little things that need to be done from time to time should be taken care of. They will develop into costly breakdowns if you don't.

Regular, systematic servicing will save you money in the long run.
