Your Own Doorstep

COME of us have queer ways of looking at things at . times. We focus one eye on an object and close the other lest it discover something else.

and there. It is unsightly, and our mind dwells upon be so successful.

becoming single track minds.

that point. A few minutes later we may be tossing a discarded newspaper into a corner, unmindful of the fact that we are doing the very things that we condemn

We see where an improvement is needed and proceed to roast our authorities for not having it made. We orate glowingly to our friends and cronies upon what ought to be done.

We even intimate that if we were the official question it would be thus and so. We wander around town and size up the various if by magic. homes and their surroundings.

should be corrected. But it doesn't occur to us to compare those conditions with the conditions that exist around our own Health Service's tests.

That heap of decaying refuse in our yard is our business. Others should not see it.

the street for a child of her age. end. Some mothers are blind to the faults of their Industrial Hygiene and Savitation make walls own children.

dare you intimate such a thing? Fatricia is nected changes. tion perconified, the degreet a discretect child in the

of day? busybodies! gets engaged to Mr. Moneybags, the distinguished lieve eye strain, are two other problems being studied, here in Washington at low pay for banker of Snobville. Of course, he is just a wee bit older than she is, but so refined, and sedate, and digni-

younger set. She is so intellectual! And Blanche Browne is to marry that old baldheaded miser, Jerry Tightwad. And it's a shame! Her mother will rue the day she allows her daughter marry for money. But what can you expect from the daughter of such a mother?

And there you are! We never seem to be able to search out our own shortcomings before putting the microscope on our neighbor's.

Most automobiles are equipped nowadays with shock absorbers. It would be much better if the driver could wear them.

Radio Has Wide Use

some form of entertainment, giving little thought to these, has a child-like faith in the miraculous, the great uses other than entertainment to which radio and wireless is being put.

that of communication, and while we enjoy the free ods and often point the way for improving them. use of the radio within our homes, we should ponder over these other great achievements.

alone by radio as a navigation aid. The U.S. Light-ment. house Service maintains radio beacons at all strategic points along the coast and huge ocean liners are thus kept on their course. Radio beacons have played a large part in aviation

as direction finders. The large power companies in nearly every bi proaching storm.
