COME of the big events in world history go almost ize the importance of what has happened.

For example: between 1910 and 1930 British and American doctors did something that probably will lieves, have but a limited usefulness in the hands of lay the heaviest taxes ever imposed prove more important to the Far East, in years to come, the public, but suppressive measures offer the best in this country. Everyone will note than the World War itself; yet their exploit got almost means of exterminating the rat. The most effective the increase in postage from two to no space in the press, and went almost unnoticed ex-suppressive measure is to separate the rat from its three cents. Such common things as cept among scientific circles.

an apparently sure cure for leprosy, scourge of the ever foodstuffs are stored. Leprosy has been a plague since Biblical times. Everyone who has gone to Sunday school can recall address at the age of 75 years. He was old enough to before the measure becomes the law the horror in which the ancient Israelites held the dis-know better. ease. Lepers were driven out of cities and towns and compelled to subsist miserably in rock caves. They were "unclean;" no one, on pain of death, could have

it condemned the sufferer to untold agony and a lingering death worse than even the ingenious emperors could devise in their torture chambers. Now, however, Sir Leonard Rogers, British scientist, declares that new developments in the use of ful poetical style: hydnocarpus oil in treating the cases makes it possible to cure practically all except advanced cases. He believes that eventually leprosy will disappear from Brit ish and American possessions everywhere. In the United States the disease is extremely rare,

of course. But in the Orient it is common. Some believe there are 1,000,000 cases in India alone. If Sir have gradually given way to the present soap age, tions is trying to save him from the Leonard is right, and leprosy can be wiped out, it will with nice bathtubs to splash about in. Shakespeare's fate that has almost overtaken the be one of the greatest things for the Far East that whining schoolboy has become a "revolting youth," buffalo. ever happened. Its effects will be remembered there and his soldier, full of strange oaths, is likely vice long after the World War has passed into history

Press as a Factor

THE modern day press, whether it he a home town nature, continues to bring more forcibly that the scheme of life that we brag so much about. You can't other ceremonies are carried out his statistical sojourn.

subjects. It is interesting to step into a place where Lindbergh's hair. papers, periodicals, news, trade and fiction journals are on file and observe how many of them have to with special subjects of either sport news or feature explained by the fact that most of the leaves went into disadvantage, and hurt the reading value, and of a definite educational value.

If we were to stop at one of these places we would find an advertiser's magazine, in which various selling and merchandising problems are discussed by
