TAKEN FROM THE FILES OF THE ANDOVER NEWS

### Forty Years Ago

MAY 4, 1892

Hamilton C. Norris, Editor

The story is several days old and everybody who is interested knows all about it. But Andover is an incorporated village. The vote taken last Thursday resulted in 142 votes being cast in favor of the project of incorporation and 70 in opposition thereto. The proper papers were filed with the county clerk Saturday. Next will come the electing of village officers, notice of which must be given within 20 days after the vote is taken.

The Board of Excise met Monday and granted eight licenses to sell liquor as follows: Hotel, J. A. Swink, Mrs. Harry Joyce; prescriptions, E. M. Stillman, Frank Myles, F. Dailey; store, Stillman Burdick.

Here are some prices quoted in a meat market advertisement in this issue: Porterhouse and sirloin steak 12 1/2 pound; best shoulder cuts 10c; good rib roast, 8c; farmer's pork, 8c to 12c; lamb roasts, 10c; veal roast 10c, etc.

Friday is Arbor Day. The practice of deborning cattle is being carried on to a large extent in many portions of this county. So far as known, the results are gratifying.

The cheese market opened in Cuba, last Wednesday, prices being 9 1/2c and 10c pound.

The Wellsville, Coudersport and Pine Creek railroad will be extended two miles further, to Perryville.

H. P. Benton is erecting a small building in the rear of his store, to be used by Mr. Fowler in his undertaking business.

Dr. F. E. Comstock's office has been moved to the rear of the building occupied by D. B. Spaulding's drug store (soon to be transferred to Dr. Comstock and H. A. Bennett). The doctor's office faces on Greenwood streets, as before.

"Funny, ain't it?" But why, if Andover people will pay their money to merchants of other towns for goods, cannot Andover merchants furnish carpets, hardware, furniture, clothing and dry goods, etc., to people of other towns for cash. This is a free battle for bread and butter. Let it go on.

Dr. E. M. Stillman, postmaster, has received notice that he is entitled to \$143 under the "Spaulding Act" which readjusts the salaries of fourth class postmasters who served before the present system of fees was inaugurated.

Mosher & Backus, Owners

The board of sidopath commissioners of Allegany county met in Belmont Monday. The annual report showed a balance in the hands of the treasurer of \$387.99. It was voted to spend about \$250 of this sum in making a path from Wellsville to Alfred, thus completing the path from Cuba to Hornellsville.

The Law and Order League of Andover held its first public meeting Sunday afternoon. The league is only undertaking to do what is the plain duty of every citizen. All forms of lawlessness should be suppressed. The majority of our citizens are sober, law-abiding people and they have a right to insist that the law shall be respected by those who disregard its requirements.

Time to work gardens. Farm help is scarce in many places.

Rogers & Updyke are still "fishing" for the stem, lost on the Pease farm last fall.

J. W. Richardson has planted corn and potatoes, and calculates to have garden "sas" as early as the earliest.

"Central Time" is the time the telephone girl keeps you waiting while she gets ready to say "hello."

E. A. Stearns had more hard luck this week. This time a valuable cow fell out of his hill-side pasture and killed itself.

The Town Board will receive bids May 10th for the erection of a new iron bridge across Dyke Creek on lower Main street.

The Mutual Gas Co. completed a fairly good gas well on the Wm. Kaple farm, about one and one-half miles southeast of Andover, Tuesday.

"Stet" Sherman died of consumption at Wellsville last Sunday evening. His wife was Miss Susie Crandall, a former Andover girl.

C. B. Lever had a pleasant (?) job the other day on his farm. A sucking colt was running and playing around, when, in sport, it jumped into a 20-barrel tank of water, used as a watering trough. The colt was extricated after considerable effort, with many drenchings.

Miss Myrtle Staples, who is staying at the home of Timothy Barker, won the gold watch of the traveling medicine company that has been plying their trade in this village the past week.

The old hills begin to don their summer attire of green. Have you your summer suit out of hock yet?

Rev. Daniel Redmond of Avoca pastor of the Presbyterian church of that place, returned Friday from a visit with his parents on Greenwood Hill.

### PRESBYTERIAN

Rev. Frank H. Bisbee, Pastor

The evening division of the King's **HOW, WHAT & WHY?**

The Andover News has arranged with the Office of Information of the New York State College of Agriculture and Home Economics to answer your questions about problems of farm and home. Answers to questions of general interest are printed in this column; but if you inclose a self-addressed, stamped envelope, and mention the name of this paper, you will receive a direct reply to your query from the Colleges.

Household questions about food, shelter, and clothing for all members of the home circle are welcomed. Farm questions may deal with anything from the largest farm enterprises to a tablecloth-size backyard garden.

Send in your queries. Address them to How, What and Why, Room 201, Roberts Hall, Ithaca, N. Y.

### Scrambled Eggs

Mrs. O. S. T. writes about scrambled eggs, and says she is never sure they will turn out well. "Sometimes they are tough and leathery," she says, "instead of being tender and fluffy. How can I make sure that they will be good?"

Be sure of doing the same thing and the right thing every time you scramble eggs. For four people use this recipe: Four eggs; 2 tablespoons of milk or cream; 2 tablespoons of butter; 1/2 teaspoon of salt; pepper to taste. Stir the eggs with a fork until they are stringy, mix in the milk or cream. Then add the seasoning. Melt the butter in the upper part of a double boiler, in the lower part of which the water is boiling. When the butter is melted, pour the egg mixture in and stir it lightly until the egg is fluffy, but not hard. The moment it reaches this stage, lift out the top of the double boiler, and serve the egg at once.

### Cost of Electricity

E. B. R. asks: "How expensive is it to run a five-horse-power electric motor?"

On the average, an electric motor uses a kilowatt of electricity per horsepower an hour when working at full load. Since rates vary, multiply the five kilowatts by your local rate and the answer will be your cost for one hour's work.

### Stainless Spray

Mrs. H. R. W. asks: "I sprayed my shrubs with Bordeaux mixture last year and they were stained most all season; is there any spray that is effective that does not stain the foliage?"

Bordeaux mixture is one of the most effective fungicides for plants but the bluish tint markedly discolors the foliage. A new sulphur dust colored green, is nearly as effective, is easier to apply, and does not discolor the foliage. Always apply the dust before a rain for fungus is most active when the leaves are damp.

### Water to Drink

Mrs. C. H. asks: "How much water should a person drink daily?"

Most authorities agree that from four to ten pints a day is the daily water requirement. With little exercise, little water is needed. With strenuous exercise, much water is needed. Since most foods contain considerable water, two or three pints of water, as such, is enough for most persons.

### Doesn't Harm Calf

Mr. C. B. J. asks: "One of my best cows has just finished a year's test with a high record. The neighbors say that her calves from now on will be poorer milkers than her calves before she made the record. Are they right?"

Many believe that forced feeding ruins a cow. That depends on whether she was well fed, not as to the amount of feed but as to the completeness of the ration. The cow's later calves will be just as good, or as bad, as the germ cells of the cow and sire, regardless of the year's test.

### Blue Flowers

Mrs. C. J. T. asks: "I have delphinium and forget-me-nots in my garden but would like to have more blue-flowering plants. What would you suggest?"

Turn for help to the Bellflower family, distinguished in the nursery catalog by Campanula, as the genus name. This family includes: Canterbury bell, the chimney bell flower, the big-leaf bell flower, the silky bell flower, peasebell, Campanula bell flower, and among others, a close relative, the balloon flower.

Daughters will meet tonight (Friday) at the home of Mrs. Swarzenbach. Miss Edith Paine will be a hostess with Mrs. Swarzenbach.

There are many important and appealing truths in Religion. One truth is more vital than all others. It is "The Central Truth of Religion, leader, John Croyle. Subject: "Co-operative Rural Life," Isa. 5:1-10.

The recently organized "Junior Church" will meet with the pastor in the session room of the church Friday afternoon, immediately after the close of school.

Please remember the following events in your school: The Allegany County Sunday School Convention, Thursday, May 5th. Mother's Day, Sunday, May 8th.

This will be the Sunday morning sermon subject. At the same service the pastor will speak to the children upon the text, "Swear Not At All." It is a good text for many adults to think about.

"Isaac and His Wells," will be studied in the Sunday School. "The Sabbath School is at the very foot of the religious life with all its benefits to the individual and the nation, and for this reason I cordially commend all efforts to enlarge its field of usefulness."—Herbert Hoover.

### METHODIST EPISCOPAL

Rev. R. C. Shergur, Minister
