

**Built to Withstand  
The Stress of Time**

Founded on American traditions as old as the nation itself this banking institution stands as firmly upon the rock of financial dependability as the lighthouse stands on the rock-bound coast. Its rays offer as sure a comfort to the financially puzzled as the rays of the lighthouse to the sailor.

**Poor Horse**

"I should think a horse would be the saddest animal in the world."  
"Why?"  
"He always has to hear the driver's woes."

**No: Not—**

The new Indor quick-killing fly spray is not just one more spray, but a two way insect exterminator that kills both by smothering and also causing surface infection that soon destroys.

This spray developed in B. K. General Laboratories is easy, safe and pleasant to use; non-poisonous to humans, birds and domestic animals, will not stain fabrics or taint food, has a pleasant odor—but is sure death to flies, mosquitoes, spiders, moths, roaches, bed bugs, and all those small buzzing, crawling pests that so disturb and damage well ordered households.  
Be sure you get "INDOR" the latest and best. Pints 60c; quarts 95c.

**Chocolate Bars**

The largest and richest five-cent and ten-cent bar in town. Also a new line of Nut Butter Kisses. They melt in your mouth—15c a pound. See the big basket—3 bars for 10c.

**Swimming Pools**

A very rigid test for paint. Down in Dallas, Texas, a curious painter tried five makes of four-hour Enamel in the bottom of the pool at the Baker Hotel.  
That was last September. The pool was then filled and was not drawn off again until April 15th of this year when Utilac proved to be still perfectly white and in good condition. All the rest were more or less discolored, partly peeled off and in general poor condition.  
The Hotel company ordered 22 gallons of white Utilac to repaint the entire inside of the swimming pool.  
There is only one Utilac, it is made by Benj. Moore Co., all other four-hour drying Enamels are inferior imitations, trying to trade on Utilac quality and popularity.

**Turn About**

Widow: "That boy of mine is simply turning things upside down. What would you advise me to do?"  
Crusty Bachelor: "Ditto!"

**Exterior Painting**

The appearance of a home often suggests the qualities of those who occupy it; prosperity, kindness, attitude toward life all vividly expressed by the surroundings we create and maintain.  
We all like to appear at our very best; there is a spark of "Keeping Up With the Joneses" more or less alive in every one of us.  
There are very few things we can do that will pay so well in protection, appeal to vision, and the general feeling of well being as to see our buildings well and freshly painted.  
Moore's Paint produces just this condition; contentment and satisfaction follow its use. No other paint is quite so good or economical to use.  
Lower prices out June 1st, let us tell you about them. No paint costing less per gallon will do your job for so little money.

**Want to Try?**

We have for trial a sample of the new light weight Electric Automatic Ironer, which is just half the weight of other standard Electric Irons, but heats in half the time and actually irons faster with less pressure.  
That statement sounds extravagant and that is why we want you to try this iron. Telephone when you have ironing to do and we will send it around. We have no similar irons for sale and one only for trial.

**Wall Size**

A little added to first cost will improve many paint jobs.

**Bug Death**

The old reliable powder in bulk. Buy what you wish—10c a pound.  
Also Black Leaf 40, C. C. C., Beetle Mort and the Arsenate poisons; don't let the bugs and worms beat you out of a full crop as we furnish the ammunition of destruction and sprayers for shooting it where it will do the most good.

**Rubber Heels**

To fit Cubans and Oxfords, ladies shoes—10 cents pair. Men's rubber heels, whole or lift, 10c each.

**Self Starter**

"My wife waits for the least little thing on my part to make trouble."  
"You're lucky—mine's a self-starter!"
