or disapprove when you cast your ballot. When employment was general and profits large Where a hundred read all that is in the home paper, we were not much concerned with the activities of possibly only one out of that hundred reads everything government. Today, with vanished savings, general that is in the biggest city daily paper that comes unemployment, loss of homes and increased taxation them. we are in a sterner mood, and anxious to know what Large national advertisers are also aware of the from the ankles of millions of huhas happened during the period of our complacency. fact that the smaller town papers are of particular man beings. We find a multiplication of bureaus rendering value to them. They know that they can gain more! services which are unnecessary and in most instances at less cost in advertising in them and that their mesa duplication of that already rendered by business sage is almost sure to be read where the same is doubthouses. So we have the Department of Agriculture ful in the metropolitan newspaper of many pages. issuing a bulletin entitled "Principles of Window Curtaining" and it solemnly states that curtains are sometimes used to keep the light out of windows in which why we got so excited over the election. they are hung and sometimes to secure privacy. Does this aid in relieving the undoubted distress of the farmer? Could not the people dispense of this information?

Other pamphlets issued are "How to Dress For a Sun THOSE who can see the value of an improvement of Bath," "Where Sheets Wear Out." The Farm Board spent \$300,000,000 in a foolis attempt to stabilize the price of wheat and cotton i the world markets with the result that wheat sold for one-half the cost of production. One of its officials who had been receiving a salary of \$6.000 a year the grain trade had his salary boosted to \$27.500 year when he joined one of the Farm Beard Chain Pools. Thus does a prodigal government apend taxpayer's money.

During the past three years our economic condition has grown steadily worse. That is not news you but it is news to members of Congress. With a people already burdened by excessive taxation, industry prostrate, markets closed and income gone, no es fective effort was made to accomplish real economy i our Federal Government. Members of each party are now busy trying to fix the blame on the other. Why not be fair? If you will look at the record of votes cast on the economy measures you will find about an even division across party lines. Apparently economy

was not a party issue in the last Congress-it was an individual matter with each representative. One Congressman was so unconcerned about the wishes of his constituents and the welfare of the nation that he even proposed to create an additional bureau,

enlarging the scope of unnecessary and unwanted ser-How could this happen under a system of government designed to be responsive to the people at all THE Constitution of the United States was drawn staying with the game and trying to times? There seem to be two possible explanations: I and perfected by the ablest body of men ever as find a way out. And yet, he didn't Some students of government have described it to sembled to launch and establish a government to be raise a hand. The president of a what they term the "official mind."
