Youth is naturally idealistic. Many a man can remember making youthful remarks about doing a life work that he would enjoy regardless of income. And boys today still think the same way. It is not until they grow older that they realize the full value of money—and its inescapable necessity. Meantime, start them on a good habit—a Bank Account and regular deposits!

Actually, do you know if your body and all your organs are sound? Few girls do. The wise girl knows, because she goes to the family doctor every year for a health examination. She thus keeps in good health, and lays the foundation for better health and greater fitness in the years to come. The majority of serious maladies can be checked or cured

these conditions. Tuberculosis, heart disease and physical deformities can often be traced to improper conditions, bad habits or neglect during the period of adolescence. The yearly examination is the foundation stone of preventive medicine, a comparatively new practice by which many serious diseases may be prevented. Arrange for your exam-
