A CAREER OPENS UP

Is it not high time for a larger reverence to be given to that quiet unassuming Joseph, the Father of Jesus? To Mary, his wife, the church has assigned a place of eternal glory, and no thoughtful man can fail to be thankful for it. But with the glorification of Mary, there has been an almost complete neglect of Joseph.

This is partly because Mary lived to be known and remembered by the disciples, while nobody remembered Joseph. Was he just an untutored peasant, married to a superior woman, and baffled by the general of a son whom he could never understand? Or was there, underneath his self-effacement, a vigor and faith that molded the boy's plastic years? Was he a happy companion to the youngsters? Did he carry the youngster, laughing and crowing on his shoulders from the shop? To these questions the narrative gives no answer. And since this is so—we have a right to form our own conception of the character of this vastly significant and wholly unknown man, and to be guided by the one momentous fact which we do know.

It is this. He must have been friendly and patient and fine; he must have seemed to his children to be an almost ideal parent—for when

DEMOCRATS PREDICT SMASHING VICTORY

State Candidates Seem Assured of Piling Up Record Vote in All Counties

Confident of victory, candidates on the Democratic state ticket are applying the finishing touch to one of the most intensive and effective campaigns in the political history of the great Empire State.

They have presented the issues in plain language and have carried their appeal for support to the plain people; they have met every challenge fearlessly and promptly and they now are willing to abide by the decision of the electorate.

A survey of the campaign which is rapidly approaching the close, reveals that Lieutenant Governor Herbert H. Lehman, M. William Bray, Comptroller Morris S. Tremaine, Attorney General John J. Bennett and Senator Robert F. Wagner, as well as John S. Fitzgibbon and Elmer E. Studley, have blazed a trail of confidence from one boundary of the state to the other.

At the crossroads and in big urban communities, the people have turned to them for succor, apparently convinced that their election November 8 is the surest and speediest means of eliminating the grim nightmares that have sprung from the depression.

Self-Preservation The record crowds and the wild enthusiasm greeting the candidates at every stop sprang from something more deep-rooted than party loyalty.

They were born of the times and a desire to insure at least creature comforts during the year ahead.

From Col. Lehman down, the candidates have solemnly pledged themselves to dedicate their first official acts to the war against unemployment and poverty. They have stressed this in all their public and radio talks and, judging from reports keeping in to the Independent Citizens Committee's headquarters, they have brought confidence to the great mass of voters.

And it is this confidence, leaders predict, that will sweep Lehman and his fellow nominees into office by one of the largest Democratic pluralities ever rolled up in New York.
