Dec. 14.—S. D. Baptist Supper and Sale.

The News is pleased to report Mrs. W. N. Rice so far recovered from the effects of a serious accident as to be able to be out again this week.

The California mountain beaver, a little animal about 12 inches long, often climbs low trees or shrubs, cutting small twigs and branches which it later throws across its back and carries to its burrows in a moist meadow or along a stream bank.

Scarlet fever records show that the Japanese are 45 times as susceptible to this disease as Chinese are.

**BAKERS' STORE NEWS**

Published by Baker Bros. Hardware, Andover, N. Y.

**Experienced**

Mr. Langdon: "We want a man who can answer all sorts of questions."  
Applicant: "I'm your man, then. I'm the father of ten children."

**Beginning to Calculate?**

We read in the papers' reports from surrounding localities of the sum of money banks will shortly release to their Christmas Club members.

Andover has not publicly reported but we are confident that our people have laid aside a substantial amount, and are making plans as how they may most wisely spend it. The prudent shoppers will not be tempted with shoddy, inferior merchandise this year. Our markets of trade are flooded with the sort of wares that no matter how little you pay for them it is too much, while goods in abundance possessing real quality are offered at prices that reflect to an alarming degree the direstrated situation of our reputable manufacturers, and their trained workmen.

Every time you spend a dollar for cut-throat goods the sort that measures up to no standard of value and have a sweat shop ancestry, you are prolonging the depression, lowering the standard of living among our wage earners and adding to the burden of relief organizations the world over.

If you producers want to keep on selling milk for one cent a quart and potatoes for six to eight dollars a ton just continue to patronize the food distributors who are bending their every energy to the hammering down of values.

In our own line of business we are able to buy some lines at a price that means an actual loss to the manufacturer and a bean soup diet to his workmen.

We do not like it.  
**Radio B Batteries**  
Snappy 45-volt. We don't know yet how good they are but they test strong and are guaranteed—\$1.50 each. Set of 3 for \$4.00.

**Can You Beat It?**  
"So your friend became wealthy thru a sudden movement in oil. What oil stock did he buy?"  
"He didn't buy any. A rich old aunt tried to start a fire with a can of it."

**Knives for Christmas**

If you have any doubt about a gift for a man or boy, you can never go wrong on a Pocket Knife; that is an article that even the ownership of two or three is no over stock.

You will do us a real favor by coming in to see the beautiful line we are now offering, and never priced so low. White handle specials at 39c.

A knife to be good, need not be ugly, but as prideful in looks as a watch or a gun.

**Dry Bottoms**

Shoes that let moisture travel up thru the soles are not only a discomfort but dangerous to health. Cement On's are water proof, non-skid, will not mark floors and almost noiseless.

We have soles to cement on in all sizes. (You may fit the whole family now) and the price is from 10 to 25 cents. Rubber heels 10c and up.

**Candy Bars**

Baby Ruth, Nut Loaf, Buy Jiminy, Butter Fingers, Your Favorite Chew—now one cent each.

**Throat Tickle?**

Try a nickel's worth of our Horehound Cough Drops. They allay irritation and are pleasant to the taste, keep a sack within easy reach.

**Flash Lights**

The finest of them are no better than the battery and bulb they carry. Load yours with Mipco Batteries and Mazda Lamps if you would have long and dependable service.

**A-B-C**

A paste shoe polish that keeps leather soft and pliable while giving it a wonderful shine. 10 cent packages—black, brown or tan.

**Dark Mornings**

Hard to get the eyes open and the sleep out of your system. An Alarm Clock that goes with a bang is a great stimulator. Place it beyond reach and before you get it turned off you are awake.

Super Giant Clocks in the latest dress and with silvered faces \$1.50.

More than 278,665,000 bronze one-cent pieces were minted during the fiscal year ending June 30, 1929 in the United States.

**Persian "Music" Apt to Grate on Western Ears**

Persia's pictorial and decorative art was widely published at an exhibition recently held in London. But beside this art, there is a good deal of music in Persia. The Persian orchestra usually consists of a zither, played with wooden sticks, a very ancient and primitive style of guitar, made of mulberry wood, with only three strings, played with a bone "plectrum," viols that look like mandolins, a pipe, and a horn, a large drum, and two small ones on the same principle as our kettle drums.

The viols are made out of pumpkins strengthened with ribs of wood, ivory and bits of metal, while each has a long spike to rest on the ground, so that the instrument is played like the violoncello. The noise of such an orchestra is terrific, especially when "singers," who shriek at the top of their voices, join in. Put as the only type of western music that has been introduced is that of inferior brass bands, the Persians usually prefer the native music to that which is imported.

**Pride in His Work**  
A story told of the famous Italian poet Dante relates how the poet once overheard a blacksmith sing one of his songs, in a horribly mutilated form. Whereupon, in anger, Dante upset the tools in the smithy. On being questioned by the astonished smith, the poet informed him that he was as particular about his productions as the smith was about his tools, and made him promise not to sing his songs unless he saw that he could do it correctly.

A set of triplicate saucepans placed over one burner saves fuel by cooking three dishes with the heat ordinarily required by one.
