It is said that a scheme is on foot to divide Steuben county into two counties. The bill which is already drawn and ready for introduction in the next session of the New York Legislature, provides that Bath, Hornell and all northern towns compose Steuben county, and that Corning, Canisteo and all southern towns compose a new county, the name of which has not been decided upon.

The little village of Canisteo had a good sized sensation to gossip about Thanksgiving Day. Chris Hempstad and Miss Roxa Young were to have been married the day previous but for some unknown reason Hempstad failed to live up to his part of the agreement. Invitations had been sent out to friends and relatives and on the evening of the marriage a number of guests, with presents, assembled at the home of the bride where they waited for hours for the groom to show up.

Last week a grand jury found indictments against Mrs. Ella M. Rumpf, of the Angelica Every Week and G. W. Fries of the Friendship Register. The charge against these editors is that of criminal libel. During the late campaign they said harsh things about District Attorney Brown, charging him with various offenses both public and private life. The indicted parties both pled "not guilty," and gave \$500 bail for appearance at trial.

ferred from tuberculosis four years, but was able to be about until the past few months. He is survived by his wife Treva Gostley and two children, Marjorie aged eleven and Donald aged four years and many other relatives. His case is an especially sad one, as he hoped to live to care for his family. He was a genial, social man who had a large circle of friends who regret his untimely death. Funeral services were held at the late home on Friday afternoon at 2 o'clock, Rev. H. J. Marquis, his pastor officiating, with burial in Rural Cemetery.

Around Our House

Milk in Disguise

Although milk in undoubtedly the most important single food for children, it is no value unless it goes where it can do its work, - inside the child. Comparatively few children refuse to drink milk and those who do refuse to drink it can generally be induced to take it in some other form. It is up to the mother to think of other forms in which to give it.

At breakfast, the milk may occasionally be flavored with cocoa, or the cereal may be cooked in milk and served with top milk. Thin white sauce poured over crisp hot toast may be acceptable in place of plain milk toast. Scrambled eggs furnish three tablespoons of milk to each egg; or the eggs may be poached in milk, and the milk in which they are poached poured over the toast on which they are served.

For luncheon or supper, almost any vegetable or vegetable combination may be successfully served with white sauce, or as vegetable timbales. Toast with cheese sauce supplies milk in two forms, as does cheese soufflé, while any kind of souffle makes an excellent milk main dish. Creamed meat, fish, or chicken, creamed soups, and scalloped dishes are other possible ways to use milk.

Desserts probably make the greatest appeal to the child, and they offer the widest use for milk. Custards, cornstarch pudding, bread pudding, junket, and gelatin-milk combinations all furnish considerable milk in each serving.
