BAKERS' STORE NEWS

Published by Baker Bros. Hardware, Andover, N. Y.

And Hurry
 "Hello, is this the Better Business Bureau?"
 "Yes."
 "Well, how'd you like to come down and make ours a little better?"

Christmas Cards
 Their low price this season fully reflects the prevailing chain store cut rate prosperity.
 You will find our prices (two for one cent and up) quite in accord with the most conservative ideas of economical buying.

Small Boys and Girls
 Can have a lot of fun and healthful exercise with a football. We bought some especially for the little folks; safe to use indoors and sell for 19c.

Electric Toasters
 At 98 cents and \$1.48 complete. Very well made and finished.

Warm Hands
 What numberless accidents, painful injuries and even human lives have been lost because somebody had cold fingers?
 No person can think or act quickly when their hands are numb with cold. Don't trust yourself or family to a bare-handed driver when the mercury is playing in the twenties or below. We have a fine assortment of Gloves and mittens. They are low in price but built for service and comfort.
 Just scan your Christmas list and see how well Gloves or Mittens will fit into your scheme. Service gifts are in fashion this year.

Caterpillar Chains
 Carry a set in your car and pull out no matter how bad the road.
 If you are caught out in snow, mud or on the ice, just snap on Caterpillars and drive safely.
 They are durable, safe and low in price. Made in the U. S. for American motorists, and selling up from \$1.00 a set.

It's a Lazy Way
 Popping corn by electricity, but very sociable and the kernels are as fluffy, tender and well flavored as is possible with the best of fire contact appliances. The price is now 79c.

Give a Lamp
 Floor, Table or Boudoir with Shade, Cord and Plug—\$1.00 buys one that is really attractive, while those at the top prices have a richness and beauty that can be appreciated only by seeing them for yourself.
 Desk lamps with flexible standards at \$1.75, will find a place of usefulness in every electrified home.

Twelve Hundred Feet
 That is almost a quarter of a mile—a long way to project a strong beam of light from a spark no larger than the head of a match, but that is what our Usa-Lite Five Cell Focusing will actually accomplish.
 A great light for hunters, chicken thieves, motorists and all who travel in the dark. The case is brass highly nicked and polished. The lens is beveled plate glass both batteries and bulbs fitted with shock absorbers; has a ring hanger and candle feature for steady light.
 The circuit metal is made to carry battery energy with the least possible amount of resistance, thereby insuring the longest possible service to its light bulb and five batteries. There are lights of this class on the market you cannot afford to own at any price because they use up batteries so quickly. But this light complete at \$1.49, is extra good value, and as a Christmas gift sure to be highly appreciated.

Steam Seal Cookers
 Not a new idea, but all the good features and some added improvements to the old stand by and at a price which permits one at least in every kitchen.
 This Cooker not only handles all steam cooking but is furnished with a trivet so may be used on top of the stove as a Dutch Oven or inside the baking oven as a roaster.
 Ample in size, Lisk's Imperial Enamel and priced complete at \$1.35. We believe it quite equal in service and utility to those previously sold at \$3.00.

Selfish Eve
 Mother: "What did you strike your little sister?"
 Young Bobby: "Well, we were playing Adam and Eve and instead of tempting me with the apple, she ate it herself."

Stockholders' Annual Meeting
