ISSUE NEW CIRCULAR ON STRAINING MILK

New Experiment Station Publication Gives Details of Strainer Con-struction Necessary for Efficient Work-Other Factors.

Under the title of "Straining Milk on the Farm," the State Experiment Station at Geneva has issued a new circular prepared by Dr. A. C. Dahberg, head of the dairy division, on this perennial problem of the dairy farmer. Dr. Dahberg describes the construction of the strainer when it Jan. 9.—Mr. and Mrs. Carrol Church spent Sunday afternoon at the home of his mother, Mrs. Addie Church of Proctor District. Miss Maude Perkins returned Sun-day to Geneseo after passing the holiday vacation with her parents. Edward Kent of Wellsville has been trucking potates from this Floyd Hann visited Wellsville friends last week. George Beebe was in Alfred on discusses the relative merits of pads and discusses the relative merits of pads and cloths. He also discusses the effect of temperature of the milk on strainer capacity. A copy of the circular may be obtained upon request to the station.

Things to consider when buying a strainer, says Dr. Dahlberg, are the efficiency with which sediment is removed from the milk, the amount of milk which one cotton pad or filter cloth will strain, the ease with which the strainer may be washed and the strainer when it is to be used to the strainer when it is to be used to make the strainer when it is to the state part of last week. George Beebe was in Alfred on discusses the territed and the strainers the latter part of last week. George Beebe was in Alfred on when it is the strainers the latter part of last week. George Beebe was in Alfred on when it is the strainers the latter part of last week. George Beebe was in Alfred on when it is the strainers the latter part of last week.
