Baker's Hardware News

oo Slow, Too Fast!
Judge: "Why are you here?"
Autoist: "My driving was too slow."
Judge: "Too slow?"
Autoist: "Yes, the motor caught up to me."

Curtain Cranes
Are a real step forward in the hanging of curtains and draperies. You may set them at any angle and when desired will turn entirely out of the way for cleaning and dusting. Your curtains will require much less cleaning, hold their shape and color better and give added years of service if you fit them to cranes. During this Spring's houseclean- ing is just the right time to put up new Cranes.

illing Holes
Plastered walls are not bomb- proof, they crack and fall, leaving aged holes which may only be sealed by a substance made for that purpose. This need is supplied with Rutland Patching Plaster, a plaster product that may be used by anyone. No special tools are needed to insure a good smooth job, level with adjoining surface and no cracks around the edges. When freshly mixed it is as easily handled as putty, when dry it is as hard as cement. It is packaged to suit your needs and the left-over will keep until needed.

House Cleaning
Too trying a job for messy weather, but the pantry may be cleaned anytime. Shelving in closets or party look better and retain a cleanly attractive appearance much longer if covered with specially pre- pared shelf paper. Comes in folds 12 feet long with a lacy edge and tinted border—5c a strip.

Steel Rule
A flexible Steel Rule, a very good imitation of the original genuine U. S. product and selling for one-fourth the price. They are very handy, take up little space and if used as intended without accident, will last a lifetime. At 45 cents each, it would appear that many people could use one to advantage. Look them over the next time you come by. They are both ingenious and interesting—72 inches long, yet coil up into a space no broader than a silver dollar.

White Goods
You can't be too careful about the oil you use on your sewing ma- chine. That is the reason for Boye Oil. It is a perfect lubricant; will not gum, and will not stain white goods or other fine fabrics. More for your money too. Ask for it—Boye.
And the Engineer Got Mad
Engineer: "What do you mean by flagging the limited?"
"I'd like to borrow a wrench. I got to change a tire."
