

### ON GOING AHEAD

JUST as the railroads turned to the new streamlined, high speed trains to afford travelers the utmost in service so must a bank recognize its responsibility to its depositors and patrons by making available a financial service which meets all of the requirements of the day.

This institution offers its customers every phase of banking service that is consistent with sound business dealing. It solicits your patronage and invites you to avail yourself of a modern banking service which includes deposits, saving accounts, checking accounts, safety deposits, industrial and commercial banking.

### UNCLE SAM HAS NO FREE SEEDS

A Thousand Times No, Says Federal Department of Agriculture.

For twelve years the United States Department of Agriculture has been trying to convince 100,000,000 people that it has no free seeds or plants. Yet each year as spring approaches, thousands of requests pour in from farms, suburbs and post houses. And they meet with disappointment.

Years ago, previous to 1923, an annual appropriation took care of free seeds for Congressional distribution thru the Department of Agriculture. But in 1923 the Government decided to discontinue the distribution of this great quantity of seed since it was only commercial garden seed such as could be bought from any good seed house and did not necessarily represent varieties better than those in common use.

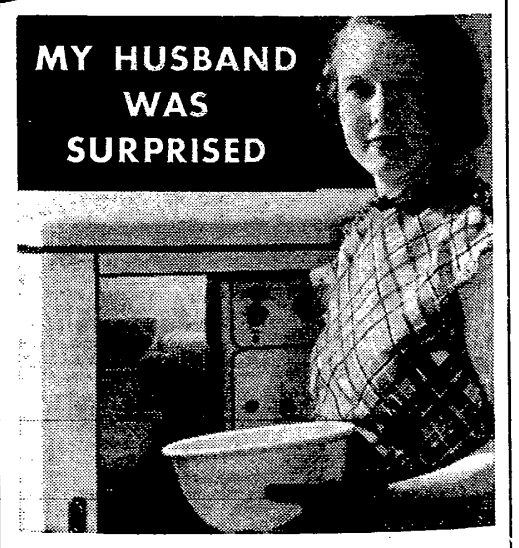

Not only does the Department of Agriculture have no free seed, it has no seeds or plants for sale either.

Mrs. H found they are now using twice as much electricity for about the same price

HER husband thought one of their electric bills was a little high, Mrs. H. said. So he looked over some old bills.

He found that about five years ago, they averaged about \$2.00. But since that time they bought a radio, refrigerator, automatic toaster, and electric iron. Now they're using about twice as much electricity for only a few cents more a month!

Hundreds of other women have told us the same story. The answer is this. The cost of your electricity has come down! Today it is the biggest bargain you buy, and the more you use, the bigger bargain it is.
