"But it is futile and stupid to outlaw a form of organization in order to provent the commission of a THE highway safety problem took a long step toward Another publication, 'Home Storage Mrs. Mathilda Spohr, Mr. and to fumigate it.

ing long and anxious years. It would be tragic, now provention. The program is detailed in a booklet joint that we have advanced so far on the road to recovery, ly published by the Legion and the National Bureau to destroy agencies which rightly conducted will prove of Casualty and Surety Underwriters. highly useful in the management of our business and

the reemployment of our normal productive powers. Recent events indicate that the view expressed by Collier's is shared by the bulk of the American people. Since committee hearings on the proposed holding com- committees in each State will maintain contact pany law began in Washington, the Congress has been l literally flooded with letters from votors concerning it

—and the vast majority of the letters, according to the United] and the Legislature, Senators and Representatives of both parties who redefeated or thoroly revied. The letters came from a people who had invested their savings in holding companies and faced whole or pertial less of money they had depended on for old age. They came from people whose jobs would be imperiled if the law were to pass. connection with holding companies, but have a patriotic interest in doing what they can to defeat unsound and ganizations. dangerous legislative policies, and to advance sound

THE town is putting on her summer dress, and as for the people of the country. usual, green is the predominating color. Nature green, the color of the leaves varies in shade—-some who drives so fast he tears them down. a delicate shade, so delicate in fact, that they might fade before the burning rays of a warm summer sun. However, they never do. Others are an olive green and still others are darker—a deep rich green giving THIS is an age of imitation and substitutes, or the appearance of vitality and the power to resist

rigors of summer storms and the bleaching sun. most inviting appearance. As they leaf out in the springtime, they seem to grow in height and width viding a protecting canopy from the hot sun of

days to come. pleasant even on the warmest days, is broken because lapis, ivory, coral, turquois and amber. some tree butcher ruthlessly sawed and chopped limbs and make it impossible for the tree thus assault ed to form the protection for mankind that it was intended it should.

These stripped trees, unclothed as they are, look as if they might apologize, if they could but speak for their nakedness. Their unsightly condition is accentuated by their gorgeously arrayed brothers and sisters Armada. which were more fortunate in their selection of owners.

## Careless Mailing

great deal of trouble trying to help some piece of mail dreamed, regardless of present degraded economic conto reach its destination.

not be delivered one year due to insufficient address, factoricraft and resulted in mass production, corporadred thousand letters were mailed in blank envelopes dustrial revolution changed laws, finances, the social the same year. Other short-comings of the public in structure. The chemical revolution faces us. Chemi-

this respect are: for whom the parcels were intended; that \$55,000 in duct as durable as leather covers automobile seats. cash is removed annually from misdirected letters; that Varnish and lacquer, much in demand at present are \$12,000 in checks, drafts and money orders never reach products of chemical laboratory. And so are hundreds intended recipients; that Uncle Sam collects \$92,000 of other products which could be mentioned which are a year in postage for the return of mail sent to the dead in general and economical usage every day. letter office; that it costs Uncle Sam \$1,740,000 each year to look up addresses; that 200,000,000 letters annually receive special attention because mailers are his opinions are always popular sentiment.

careless in the matter of addressing. This waste cannot be eliminated until the people exercise better judgment and are more careful in send-statements every so often when the government re ing their mail. It must become a habit to wrap parcels quests them, but the married man has to kick in with securely, address all mail legibly and correctly, and put one every Saturday nigh on a return address. Until then, the dead letter office in Washington will continue to be an institution main tained by the taxpayers.

## Our War Strikers

THEN a group of people are bent on making fools o. · TT themselves, it is difficult to stop them and such seems to be the status of the war striking groups meetings and public parades.
