Right now is the time for every-one to become a part of the wide-awake progressiveness of the home own.

Painstaking and intelligent thots for the betterment of the town are uppermost in the minds of the busi-ness men.

It is their ambition to make the city a larger, better city, and, above all, they work constantly with the thought of permanency.

They can develop its resources to a surprising extent if they will give their time and energy reservedly and wholeheartedly to this work.

They Get Results

Why is it?"
