Word was received by relatives of Mr. and Mrs. Peter Becker of Hornell, formerly residents of this village that they nearly lost their lives during the flood. They had been visiting friends in Arkport and while returning home the water raised in such force they could go no farther. They were hit with stones and other debris carried by the water, which forced them to leave the car. Two of the ladies would no doubt have been drowned had not the men held on to their clothing until they could get to higher ground. Thinking they could take refuge in a nearby house they were told that the building was ready to collapse, so they had to remain where they were for several hours.

No one can afford the danger and expense of the old-fashioned electric iron that will get red hot if the current is left on and forgotten.

You are always safe with a Coleman Automatic Iron. You can set it high, leave it on flat on the ironing board, yet it will not reach a heat high enough to start a fire.

In addition it will save \$2.00 or more a year in your electric bill. Take one home, try it, and convince yourself.

Customer (pointing to Chinese characters on laundry ticket): "Is that my name?" Laundryman: "No, 'scription. Mean lil' ol' man, clossayed, no teet." Customer: "Er—thank you."

Electric Fans

On these hot, sultry days an Electric Fan is a great comfort. A small one for \$1.25; a larger one for \$1.50 and the larger size in an oscillating type at \$3.45, make a fine assortment to choose from.

Garbage Cans—Hot Plates with two or three burners and Hot Plate Ovens are in demand these days and our assortment is good.

Belt Lace

Often a belt breaks or the old lacing pulls out. Next time this happens, just use an Alligator Lacing and see what a fine job you can get. It grips like a vice, protects both ends and keeps the sides smooth.

All the tools needed are a knife to square the ends and a hammer to drive home the points.

Made in different sizes for all kinds of belt.

Polish Mops

Big and fluffy, treated to pick up dust; long handles with sockets that fold down for reaching under furniture. A large room slicked in no time with one of these labor-savers. Price \$1.00.
