The Tax Tangle THE subject of taxation is uppermost in the minds of all who have anything that can be taxed. It will, all who have anything that can be taxed. It will and so on, are extending the suburbs to all parts of the tauqua, Cattaraugus and Wyoming Senator John J. Dunnigan, president citizens of that section that every the farmer now knows better what is going counties. 'eryday discussion.

We seldom find two persons in agreement on this land hours of toil he has more time to read and think 6:30, standard time, the speakers Representatives-at-large Caroline O'everyday discussion. matter of taxation, except on one point. There

unanimous agreement that something is wrong with our tax systems, local, state and national. With that general agreement as a starting point, it seems as . it ought to be possible to arrive somewhere, but instead of getting better, the whole tax situation seems to get worse. What is fundamentally wrong with it is, of course,

politics. Our political system is built on taxes. Parties are organized and maintained on the strength of public patronage- which is a polite way of saying, jobs for tax-eaters. The more jobs, the stronger the party | organization. Nobody knows how much of our tax burden

due to conniving politicians seeking to intrench themselves in office, but certainly a great deal of the taxa-) tion has, actually, no other purpose. There is nothing that can be called an intelligent; or scientific system of taxation in effect anywhere in, America, that we know of. It seems to us that it should). be possible at least to mark off the fields of taxation that might be occupied by different governmental units. It does not seem right to have Federal, state, county,

township and municipal taxes overlapping, each political unit trying to extract blood from the same turnip. There is a great opportunity for real statesmanship, as distinguished from opportunist politics, in the effort to so redistribute taxation that it will hear fair- . ly on all and not too heavily on anyhody. But the of the 'ay hungry politicians, of all parties, on h' neck

person would think that he was sleeping t if he could watch the clock while he did it
