WIFE STRIKES AT HEAVY HOUSEWORK

#### HUSBAND SAYS, "IT'S ABOUT TIME"

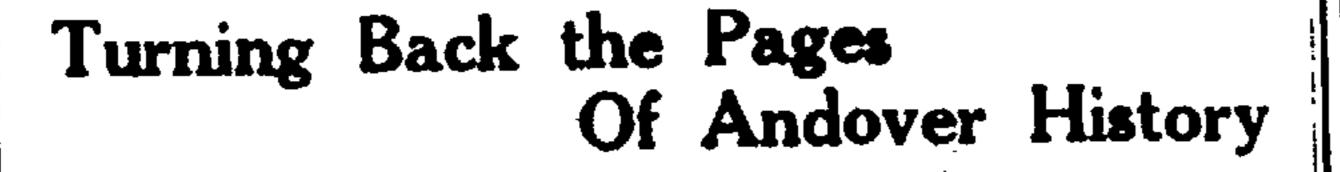

Wife: John, I'm quitting. I'm through! HUSBAND. Now dear — wait a second. WIFE: Not another second. Nothing but work-work-work-and I'm sick of it! HUSBAND. Why don't you wake up and see that you are doing a lot of work that electricity could do for you?

WIFE. Oh John, you mean we might get some new electrical appliances? HUSBAND: Why not, when it costs only a few

pennies a day to run them! WIFE. Oh John, you're simply grand! AMAZING FACT: Most anyone can afford to use electricity freely. Thanks to rate reductions it costs you less today than any other necessity. Also, the more you use the less each kilowatt hour costs; like buying apples by the bushel instead of by the dozen.
