## What is the "Low-price Field"?

**T**70U hear a lot about "the low-price field" these days. A good many cars claim to be in it. So whenever the low-price field is mentioned,

Until Ford came, no average American could own a car.

Today all Ford prices are still low — with the prices of the 60-horsepower Ford V-8 \$30 to \$60 lower than those of any other car of com-

But with Ford, "low price" doesn't merely mean low figures on the price tag. It means much more than that. It means low prices and low costs all the car's long life. Low prices for service — for parts — and, above all, for operation.

Both Ford V-8 engine sizes are economical to operate. The 85 horsepower gives greater gasoline mileage this year than ever, and the "60" delivers the highest mileage in Ford history. Private owners, cab companies, fleet operators

Check and see how much Ford saves you. Ford Founded the Low-price Field

all report that the "60" averages from 22 to 27

miles per gallon of gasoline.

Ford Keeps That Field Low-priced Today Ford V-8 Prices Begin at \$529
