

### Clear up your complexion with MILK

If you are humiliated by unsightly skin blemishes, try this easy, pleasant way to clear your skin. Just a glass of milk at least one meal a day. Cool, fresh, delicious milk. It sounds almost too easy and too inexpensive to work, doesn't it? Here's why it does: Milk is the richest source of calcium of all food. And calcium is one of the first things expensive skin specialists prescribe to clear up unsightly blemishes. You get a calcium beauty treatment with each glass of milk you drink.

Another thing: the more milk you use the more you save.

Milk is today's outstanding example of an economy food!
