WITH HOLLYWOOD

JEAN PARKER Appearing in Columbia's "Life Begins With Love"

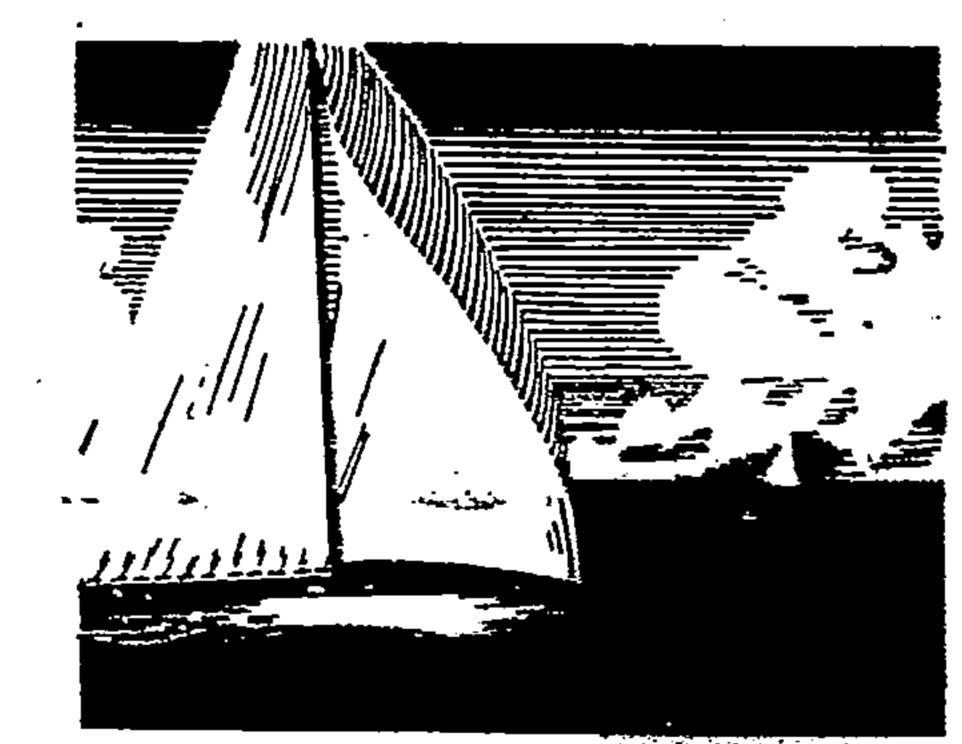

The stars of Hollywood must keep their glamorous figures always trim...because the merciless cameras seem to magnify every excess pound, Yet they can't go in for reducing diets that would make them haggard and pepless. That's why most of them drink milk. Milk keeps up their vitality, gives them sparkle...without adding weight.

If you'd like to build up your pep...and control your figure... follow the example of Hollywood's stars, drink milk. And if . you want to reduce scientifically, without growing tired and lined, send for the free booklet. "The NEW Milky Way," a brandnew edition of this famous booklet, which includes tested reducing diets of the stars. Send a postcard with your name and address to the Bureau of Mills Publicity, Albany.
