Back To School

THE days of summer play are over.' Some boys and girls may not like the new routine, but in our observation the vast majority accept school with an eager spirit convinced by their parents that education iters do all of it. after all, opens the door of opportunity and offers a better and happier way of life for those who take advantage of it.

It is a happy promise for the future to learn that THE economic council of the League of Nations satisfactory life.

tell us that students fritter away their time in non- past year. colorsal waste

No doubt these people can find incidents and conwhich raged anywhere else in the world. But the there thinge comes to pass. American people as a whole have not fallen for any of the strange delusions that disturb the rest of the world they have retained their fundamental institu both portice tions, and they have acted with good judgment in every severe crisic. In explaining this, some credit should be given to the American system of universal education. If the need for education has been pronounced MEWS from the Orient calls to mind the present hum Girls Building. plexing publicm, and situations which can be a bed migrated was a semi-barbarous region. only by a little a good intelligent cities my

well educated he finally becomes depends upon how affairs are not essentially different from the Chinese. well he succeeds in learning from his day-byday experiences.

Our Youthful Founders

EVERY little while something calls our attention again while assuming a superior attitude. L sharply to the fact that America is a young man's the Constitutional Convention of 1787, pointing out cline such as China has known for centuries. that the average age of the delegates of the 13 colonies who met in Philadelphia 150 years ago and laid the One of the things that seems foolish to us is to foundations of our government were what we, now-extend the keys of a city to a distinguished visitor adays, would call very young men. Their average age when the town is already wide open. was only 42 years.

The venerable Dr. Benjamin Franklin, to be sure. was 85, but Alexander Hamilton was only 30. Ed-with us. It's easier to get into debt than out. mund Randolph was 34, Charles Pinckney was 30, Gov. erneur Morris, whose hand wrote the final draft of the document, was 35. Those four and James Wilson, 45, because of it. were the ones who led the convention, which finished) its work on September 17, 1787.

We have a way of thinking of historic figures as in the morning. if they were all old men, and are inclined to look on the Constitution as the work of rich old graybeards. Most of the men who framed it were comparatively that men get there. poor. They stood out among their fellows not because they were either millionaires or aristocrats but because they were educated men. In an era when not one in do it in two hours-proven correct. five could read or write, education was the mark of the superior man in whom the common people placed

Those young men did a good job. The government they planned has lasted longer and brought a greater measure of good to a greater number of people than in the dog. any other government ever set up anywhere, any time, in all kuman History.

Werk is anything we must do; play, anything we want to do.

goed-bye.
