**ANDOVER THEATRE
TO OPEN**

Owners of the Theatre
Manage and R.
Themselves. V.
Saturday, Sept.

The owners of the Andover Theatre have come to the conclusion that leasing the theater to a party is not a good business proposition for the village or for the owners.

The theater was built on a theory that Andover is a town and that any village should not have a playhouse or theatre house could not be but should be treated as a village. Whenever it has been the owners as a community it has been a prosperous one to the owners and a benefit to the community.

Whenever it has been managed by a party outside of the village, it has been a loss for the owners of the theater and for the village.

While it was being built the old Home Enterprise during the 14 years it was in its endeavor to pay for its construction it was paid with the best pictures obtainable. Wednesday nights. Recently several with no interest in the or in the community had to run the theater. The quality of picture shown from four to six week and sometimes in afternoon which is not a popular demand.

The owners have decided to manage the theatre in the future for experim but it is to be conducted as a business for which it was intended that it is to be a good movie production treatment as is possible to obtain and at price, at intervals so that people can well afford it.

Arrangements are being made by the owners by which it is to be managed as will be opened September under an arrangement film producing company owners have the right pictures. The theatre is every Saturday evening, the Saturday evening performance being repeated those who are unable to attend on Saturday. This is intended to continue for the year.

The owners are confident that it is a theory that irrespective of what they are intending public the best possible the least possible money that is received for the improvement and for the benefit of believing that in response to a healthy, hearty all lovers of good entertainment and of our people co-operate in matters of our community general.
