## Prevent Fires Now

THE week of October 3 to 9 will be National Fire burden of responsibility on the driver. Prevention Week all over the United States. The slogan which will be displayed everywhere is "Lend a; Hand." It is not necessary to wait for an official, "week" to do something to prevent fires.

States, when we can expect an outbreak of fires. Stoves that many thought the industry was on its last legs. and furnaces which have not been used all summer are The radio was killing it, they said. being started up to take off the Autumn chill. A very your chimneys checked over.

come of your family, or yourself

is as nothing compared with the thousands of liver the current enthusiasm for self-made music. ncodlessly sacrificed because somebody was careless

## The Cost of Distribution

TUBED to cost a dollar to get a dollar's worth of ! **goods** into the bands of the consumer. Now, ac- THE merchant or dealer who insists upon prompt cording to some recent studies by economists, it costs | ment of bills and adopts a strict credit policy nearly a dollar and a half. It that is so, it would seem merely observing the rules of good husiness good to have some bearing on the perpentual hugabon of the business for himself and good business for you. high cost of living.

have been trying, in the effort to bring about an eco rectly in favor of your interest as a consumer and buy nomic balance between production and consumption, or that these losses be held at a minimum. we have been tackling the problem from the wrong end. Perhaps the trouble is not over-production but under-take care of the credit extended to one who is careless consumption, and that comes about because too many in meeting his obligations. Why should you, indirectmiddlemen take a toll along the highways of commerce, ly, of course, pay the other fellow's grocery bills, meat between the producer and the consumer.

It certainly seems logical to believe that the producer could get just as much, and sell more goods if payment of any account you may owe, just consider How Long Has a people did not have to pay that toll of \$1.50 on every this phase of the subject. Realize that in the end such How Long Has a dollar's worth the producer sells. The producer might a policy reacts to your benefit. even be sble to sell cheaper if more people bought his!

Of course, the people and agencies who carry goods to pay the account of someone who is willing to run to market have to be paid for their services, but do bills but is never willing to pay. we need so many of them, especially when it comes to lot of the wholesalers, jobbers, commission men and without a driver, but what we really need is somethin others who stand between the producer and the re- to control the car with a driver in it. tailer could be cut out, there would be a considerable saving which the retailer could pass on to the con-

the tendency to pass laws penalizing the producers who do their own distributing to consumers, and legalizing! the fixing of minimum prices.

# Accident Responsibility

TT IS not always the young, inexperienced driver wholk dy by safety experts seems to indicate that nearly). three-quarters of all highway accidents are due varelessness by drivers who have had eight years more of experience and have never been in an accident They get careless because of a false sense u
