John Crawford has a beautiful lawn ornament. Some years ago he cut down a large tree on his lawn, leaving the stump. Every night after dark this stump is illuminated with what used to be called fox fire. On the Stewart lawn is also a peculiar specimen, resembling a toadstool. It grows cylinder in shape, hollow thru the center, sending forth a repulsive odor. These cones spring up and grow four to five inches over night. When broken off they look like pieces of bread. A number of people have examined them and none as yet ever saw any like them before. On the Stephens lawn is a rose bush loaded with beautiful white roses, a treat for this time of year. Color effects in many delicately-colored materials are obtained by "top-dyeing," that is, putting one color on top of another to build up a rich effect.

HUMOR

Mrs. McGee: "Why did the ancients believe the world to be flat?" Ardean M.: "Because they didn't have any school globes to prove it was round." Mr. Ahrens: "Where's that young man who was calling on you?" Thelma: "Oh, he left in a huff." Mr. Ahrens: "A huff! A huff! They're getting so many new cars on the market now a fellow simply can't keep track of them." Dr. Common: "Your teeth are in bad shape. You should have a bridge put in at once." Dick Clair: "About how much will a bridge cost?" Dr. Common: "About twenty-five dollars." Dick Clair: "Say, doc, can't I get along with a small culvert?" Helen Dean: "It's awfully late. What'll we say to Mr. Host?" Mary Greenan: "Just say 'Good morning.' He'll say the rest." "Now Don," said Mr. McGee, "if there were eleven sheep in a field and six jumped the fence, how many would there be left?" Don Lynch: "None." Mr. McGee: "Why, there would." Don Lynch: "No sir there wouldn't—you may know arithmetic, but you don't know sheep." Don Oakes looked long and thoughtfully at the second examination question which read: "State the number of tons of coal shipped out of the United States in any given year." His brow cleared and he wrote: "1492—none." Mr. Host: "What do you mean by foreign entanglements?" John Lynch: "Spaghetti." News ads pay.
