## AROUND OUR HOUSE

### HOW GOOD A PARENT ARE YOU?

A good start for a New Year is to compare with your own the following traits that help to make a good parent, says the New York State College of Home Economics.

1. "Yes" to each question means you should rate high as a real parent:

1.—Do you know your child, his strengths and his weaknesses?

2.—Do you know what to expect at various stages of his development; and then refrain from expecting more?

3.—Do you keep calm, patient and serene, even though your Jimmy is having a temper tantrum?

4.—Do you arrange for your children to have companions of their own age?

5.—Do you know how to be wisely affectionate; to neither smother with love, nor betray with too little?

6.—Do you refrain from comparing him with brothers, sisters, or playmates?

7.—Do you realize the importance of play for your child's growth, and provide him with toys that help him use his body, and let him use his hands and imagination?

8.—Do you give him a place of his own to keep his toys, and plenty of time each day for play without numerous interruptions?

9.—Do you give him plenty of opportunity for self-expression through music, dancing, writing, speaking, story telling, reading, and "similar activities?"

10.—If he is a "problem," do you look for the cause and then help him substitute desirable behavior?

If there's any doubt in your answers, send for the Cornell bulletin E-355 "Making or Marring the Child's Personality Through Emotional Experience." This is sent free on request from Roberts Hall, Ithaca, N. Y.

### Youngest Noble Grand

Paul R. Taylor of Salamanca, youngest noble grand of an Odd Fellows lodge in New York State, has been re-elected by Salamanca Lodge 501.

He was first elected noble grand for the six-month term last May, taking the office in June, when he was 20 years of age, and had been a member of the lodge not quite two years, having joined just after the admittance age was reduced to 18. He celebrated his 21st birthday Dec. 22nd.

### ALKA-SELTZER for

COLDS, Acid Indigestion, Headache, Neuralgia, Fatigue, Muscular, Rheumatic, Sciatic Pains and other disorders due to an over-acid condition of the body. The alkaline (sodium-salicylate) relieves pain. The alkaline helps to correct the cause of these pains due to excess acid.

Get Alka-Seltzer at your drug store in 3¢ and 6¢ packages for home use, or ask for a drink of Alka-Seltzer at the next luncheon.

## Notify Motor Bureau of Address Change

Failure of many operators and car owners to notify the commissioner of motor vehicles of change of address has prompted Commissioner Carroll E. Mealey to issue a reminder of this requirement of the law.

"Hundreds of motorists every year change their residence without giving the Bureau of Motor Vehicles the proper notification," the commissioner said. "In the vast majority of these cases, we believe this omission to be simply a matter of carelessness or ignorance of the law. During the coming year, however, we are going to insist that we are given notice of all changes of residence."

The Vehicle and Traffic Law states that "It shall be the duty of every owner, operator or chauffeur holding a certificate or license as such to notify the commissioner in writing of any change of residence of such person within ten days after such change occurs."

The commissioner during 1938 suspended 2,894 licenses for failure of operators and owners to comply with this requirement. Suspensions for this cause were 272 greater than in 1937 and reached a record high total.

## Automobile Business Improving

Oldsmobile retail sales for the last ten days of December totalled 4,892 cars for a gain of 202 units over the 4,690 cars sold during the previous ten-day period of December, and is an increase of 1,909 cars or a gain of 64 per cent over the same ten-day period in December of the previous year, when dealers sold 2,983 cars, according to D. E. Ralston, general sales manager.

If the automobile business is as claimed, the barometer of business conditions are surely on the upgrade.

## Homemakers' Exchange

of Helpful Household Hints and Recipes

Conducted by ELEANOR HOWE

Formula for keeping and heating up left-overs: Place all left-overs in pint fruit jars; potatoes in one; peas or carrots in another, and sliced meat and gravy in another. Place in refrigerator.

The jars needn't be covered if placed in a modern air-conditioned ice refrigerator because the constant circulation of humidified air from which food odors have been removed guards against rapid drying-out and exchange of flavors.

When it is time to use the left-overs, cover the jars and set them all on a rack in a roasting pan half-filled with water. Bring the water to a boil and heat for about 30 minutes.

Do not wait for a hole to come in the elbow of the boys' sweater. Before a new one has started to stretch, sew a piece of old wool sock on the inside of the sweater at this point. This gives double wear at the place that usually goes first.

It is troublesome and expensive to heat up the oven to bake just one potato. Here is the way to do the baking on top range. Set a small lid inside a pound coffee can. In this, place the potato which has been rubbed with salt-less grease. Put the lid of the coffee can on tightly and a medium size potato will be baked in about 35 minutes.

The front door key will never be mislaid, or hard to find in a large bag, if you have it sewn securely on a piece of narrow ribbon the same color as the lining of your bag. Fasten the other end of the ribbon to the bag with a snap fastener.

## Maple Dealers Must Register

Albany, Jan. 17.—Maple syrup dealers who buy 500 gallons of syrup or more annually in other than retail containers are urged to register with the Department of Agriculture and Markets, at Albany, before February 1, to meet the provisions of chapter 572 of the laws of 1938.

The law requires registration on forms available from the Bureau of Markets.

No fee is required. The law also requires that "all maple syrup purchased by a dealer shall be officially inspected and certified as to its grade according to the New York State official standards for maple products on its delivery to the dealer, by a licensed inspector of the department of agriculture and markets. All payments for maple syrup so inspected shall be made on the basis of the grade as certified."

Nearly 100,000 gallons of syrup were graded according to the act in 1938, department officials reported.

## Express Rates Lowered on New York State Apples

A wider market for New York State apples is foreseen by the Department of Agriculture and Markets following successful negotiations for lower express charges on apples shipped from this State to Florida, Georgia, North Carolina and South Carolina.

The Department's Traffic Bureau sought reductions in express rates on apples at the insistence of growers, and prospective customers in those Southern states. Announcing the new rates at approximately one-half the former rates, the Railway Express Agency informed the Department that not more than 50 pounds of apples will be allowed in each container.

The new express rates are effective immediately.

## LITTLE BITS OF HUMOR

Oh! A Doctor's office: "Say 'ah'."

"Aw."

"No, 'ah'."

"No."

"No! Just an 'ah'."

"Anna."

The immigrant had finished his first month on the farm. "I'm quitting," he said. "You promised me a steady job."

"Well, it is a steady job, isn't it?" said the farmer.

"No," replied the man with a wan smile, "there's at least three hours in the middle of the night when I've nothin' to do."

No Fight of His Counsel was cross-examining a witness: "You say you saw the shots fired?"

"Yes, sir."

"How near were you to the scene of the affray?"

"When the first shot was fired I was about ten feet from the shooter."

"Ten feet? Well, now tell the court where you were when the second shot was fired."

"I didn't measure the distance."

"Approximately, how far would you say?"

"Well, I should think it would be about half a mile."

Called "Now, as to salary," said the boss to the new help. "Suppose we call it \$150 a week?"

"Swell!" enthused the new help.

"Understand," cautioned the boss, "that's just what we call it. What you get is \$15."

Victimized Minister (to prisoner): "Remember, my good man, that 'stone walls do not a prison make, nor iron bars a cage!'"

Prisoner: "Well, then, the dirty scoundrels have got me hypnotized!"

Not Forgotten The plumber was a mild sort of man, always wanting to see the best in everything. But he could not get away from the fact that his assistant was terribly lazy.

For a long time he managed to say nothing, but at last he could
