The Sink Unit has a swinging spout mixing faucet finished in chromium and black elastic trim with hot and cold indicators on the faucet handles. A diverter valve handle controls the spray attachment which pulls out a 36-in. extension hose. Drawers run on brass drawer slides, one divided for cutlery. Drawer stops are provided to prevent drawers from pulling out accidentally.

For a sink unit finished in acid resisting porcelain enamel, first quality in every respect, we offer at \$49.50 complete with all fixtures and you may examine the unit in our east store.
