## Keystone Dealers Launch "Safe Driving" Campaign

Will Award Motorists Observed Exercising Ordinary Good Sense and Care in Driving.

Bartley Joyce, local Keystone dealer, is announcing a novel "Safe Driving" campaign which is being launched in this vicinity by his company, to help solve the traffic problem and cut down the number of motor car accidents.

The plan will recognize and reward 15 motorists each week who are careful drivers rather than endeavor to discover erring motorists who are negligent. The awards will

be made in cash.

There is no obligation to buy any product from the Keystone dealer. All you have to do is to go to the station and register your car number.

As the plan works, a representative of the "Safety Legion" as the program is called, will be in Andover at various times and will observe drivers who perform the simple acts of careful driving, such as proper signaling, keeping in your proper place at intersections and other general road courtesies which make up safe driving. The numbers on the cars so observed will be taken and awards made from these lists. In other words, the "Safety Legion" will pay motorists for obeying the law.

The territory will be divided into districts and motorists in each dis-

trict will be awarded. All motorists are invited to join.

Safety councils, clubs and organizations interested in safety matters are showing marked interest in the novel program of furnishing a tangible incentive for safer driving.

Get complete details from your local Keystone dealer without obligation.

## Baker's Hardware News

## REPAIRING SEASON

Now that the haying is over and the harvesting will soon be done, you will have more time to look over your buildings and see what little jobs of repairing need to be done. If you have a metal roof that begins to show rust spots, apply a coat of Aluminum Paint and it will look like new and add years to its service. Also, if you have places on the outside of your house where paint peels or blister, put on a coat of Wearwhite Primer first, then apply your other paint and your peeling troubles will be over. A sure indication of the popularity of Moore's Paint is the number of houses that have been painted with it this season. You are sure of a good job in looks and durability when Moore's Paint is used.

## LICE AND MITES

If your young chickens are not doing too well, look them over and also the house they live in. The chances are that too many red mites are living off them.

"Black Leaf 40" is the best thing we know of to rid the house and the chickens of these pests and it really does a good clean job. A 40c bottle makes six gallons of spray so don't feed the mites—just the chickens!

## FOLDING RULES

Six foot folding rule with strong spring joints. Accurate measure. Each 25c.

## AUTO OIL

A recent reduction in the price of oil from the refinery enables us to now offer Bonus Oil at 79c per two-gallon can.

We have sold this oil for some time and have yet to receive a complaint as to the quality.

Try a can and be convinced that it is the best buy in town for the money.

## FLIES

This is the worst season of the year for flies and we have a full line of Fly Sprays, ranging from 25c to 45c for House Spray. Cattle Sprays come in one gallon cans at \$1 and \$1.50. Hand Sprays for applying sprays sell at 25c and 35c.

This is also the season for moth millers, so it's a good idea to spray rugs, upholstered furniture and clothes closets once a week for best results from now until the first of October.
