## LUNCH KITS; THERMOS BOTTLES

## FOR THE SCHOOL LUNCH

The secrets of satisfactory packing are to keep all flavors separate and to prevent the foods being mashed.

Wax Paper, Paper Cups, Glass Jars or Glasses with closely fitting lids insure the separation of flavors. To taste their best, sandwiches, cookies, in fact each article of food should be wrapped separately in Wax Paper. Heavy things should be placed in the bottom of the kit and the extra paper napkin for spreading the lunch on the desk will prove convenient.

Thermos Bottles are a great convenience for carrying either a cold or warm drink. Milk should be very cold when it is put into the Thermos Bottle. Come in and see our line of Lunch Kits and Thermos Bottles. Prices are right!
