An Important Statement from A & P about War Days and Food Prices

A & P's policy will remain unchanged. That policy is simply this A. & P. will provide good foods at lowest prices possible. As always tomers principally in mind. We know the hardships that increased f prices can bring to countless families, therefore, our prices will be a justed only to the extent that is absolutely necessary. If, owing to the laws of supply and demand, the price of foods we purchase moves upwards, obviously we will have to pay the higher cost and change retail prices accordingly.

You have our assurance, however, that A. & P's margin of profit will continue to be very low, and normal in every respect. Thus we pledge to you and our six million loval customers the best efforts of ou organization to keep our prices as low as sound business judgement will permit. We repeat, A. & P's policy will be unchanged.
