Even Tip Top has to surrender any claim as the rais road peak of Allegany County. Both West Notch and Swains mark elevations on the Pittsburgh, Shawmut and Northern Tip Top as a control point on the Railroad that are higher. They Erie. Now a big water tank alone represent the southwest and northeast extremes of railroad

engineering in the county. West Notch is between Richburg and Friendship. Starting with a mighty horseshoe dirt-filled treatle that spans the | being the highest point on the Erie Richburg valley, the Shawmut (system, it has bid farewell for makes a mighty climb up the l'quarter of a century to the big roads West Notch hillside. It reaches a maximum altitude of 1,938 feet-Allegany County's peer for railroad elevation. The litempo of the Erie. In the Tip Top -Adirondacks and the Catskills | glory days, 40 to 50 cars made a ANDOM present few, if any, greater operating railroad peaks.

At Swains the Shawmut makes another horseshoe sweep | years over the Hunt's cutoff. Then . across the valley in reversing (came the big-train era, when the tain a 1,778-foot height; two | today . The Erie pioneered the gofeet higher than Tip Top. But Tip Top is legend in Eric and Allegany County railroad

annals as marking the high New York and Chicago. Hence it will remain probably in the public mind as a symbol for Allegany highland peaks, as the easier to identify in a comparative way. But both the Erie and the Shawmut leave no doubt of Allegany being "on the up-and-up" when it comes to railroading.

distance that rightly belongs to the tests on this 25 mile stretch building period the idea of "mile" Either in the officially rated three Erie find an east and west soute ififthe of a mile length or the full around the big divide, and then only

mile of popular conception, it is the at huge cost. (long-st high bridge in the state. In and so we can say that not only over the Li ingeton county bender fact it ranks among any list of long in Tip Top does Allegany county high bridges that might be compiled have a peak in railroading, but that for the world. While less than half by adding the Belfast span and the P their answer. By nouting thru as high as the famous 301 foot tall Rush Creek viaduct it has triple freights over the cutoff and the Hor. Kinzua bridge in Pennsylvania, it is lpeaks that again drive home the litsion, they could eliminate the Tip! The other gigantic cutoff span is highlands, rated merely as Allegeny
