Park Service Allots Fund

The year 1860 has been arbitrarily

work.

The year 1860 has been arbitrarily selected as the date of demarcation for the buildings to be surveyed, except in frontier states and territories where many historic structures are comparatively modern.

The 511 dwellings surveyed to date in Massachusetts represent about one-fourth of the number which will complete the eventual program. One of the outstanding assignments of the historic American building survey is collaborating with the restoration program of Derby Wharf, Salem, Mass., where a complete photographic and architectural record of the Hawkes house is being made.

In New Orleans a group of picturesque Creole houses (French-West Indian architecture), built before 1800, are being measured.

fore 1800, are being measured. Prominent among current New Jer-sey projects is the surveying of dec-orated brick houses in Salem county.

Pennsylvania's most notable cor temporary historical survey is the recording of the measurements and plans of the Cloisters, a group of frame buildings at Ephrata, con-structed prior to 1740 and of unique

Earliest European type structure Church of San Jose at San Juan, Puerto Rico, believed to have been started in 1532, 40 years after the arrival of Columbus. Erected by Dominicans, it is one of the most outstanding of the few examples of pure Gothic architecture found in North America. Only true Gothic structures discovered in continental United States is St. Luke's church, pear Smithfield V. Smithfield, Va.

In 1934 the historic American buildings survey completed the big-gest single assignment on its books, the measuring, photographing and blueprinting of 160 Pueblo houses composing Acoma, the historically famous Indian fortified city atop a 360-foot high mesa in Nev Mexico, which long defied capture by Span ish conquistadores.

Auto's Own Equipment Acts as 'Trouble-Finder'

Acts as 'Trouble-Finder'
One of the most fascinating angles
o motoring is the way an owner
can use certain of his car's equipment to check up on the efficiency
of other units. When the spark
plug suppressors are removed, for
instance, the car's radio can be used
as an excellent check on the regularity of the engine's firing. The
steering gear is a splendid check on
front brake equality, for if one brake
works better than the other the car
will pull in the direction of the former. When the car's lights flare
up as the engine is accelerated, either the battery is getting low or
one of the connections is not secure.
Very loose universal joints can

Very loose universal joints can nake the front wheels shimmy bemake the front wheels shimmy be-cause of vibrations set up by the whipping propellor shaft. If the rear tires squeal when a quick stop is made, either there is too much braking on the front wheels or the rear tire treads are worn off. If the gear shift lever wobbles when the engine is idling or when gently accelerated, all is not well under the hood.

Making Basement Useful
In converting the basement into one or more rooms for additional household needs, a builder advises that partitions should enclose the coal bin and also the furnace as a protection from soot and dirt. The remainder may be divided into spaces for a laundry, a playroom and a workroom. Space may also be provided for garden tools, fruits and vegetables. The easiest partitions to install, it is stated, are those made of wood or plywood. The framework for these partitions should be of two by four inch lumber, as for ordinary wall construction. Where plywood is used place the studs on 16 or 24 inch centers, according to the width of the sheet.

Iowa's Prisoner Poet of funds-the factor that Lack caused her imprisonment-kept the poetry of Beulah Peterson, 20 years old, inmate of the Iowa Woman's reformatory, from publication. Beulah, who is serving a term of not more than five years, was sentenced on a charge of chicken stealing. In prison Beulah decided to use some of her spare time in "writing of her spare time in "writing things." "I lie in bed and can't sleep, so I compose," she said.
"Then I memorize what I've put together and write it when I get up."

Stout Fence for Farmers

Stout Fence for Farmers
The more than 190,000 miles of
aluminum cable, steel reinforced,
used for constructing rural power
lines the last two years in North
America, would completely fence in
an area equal to the total land in
the United States, stretching around
it 37 times, statisticians of the aluminum industry in Pittsburgh have
estimated.

Erie, Pa., Driver Wins To U. S. Buildings Survey \$100.00 Grand Award

The preservation of countless buildings of historic value which are in danger of demolition has been made possible by the allotment of funds to the national park service for the use of the historic American building survey. Co-operation is being given by the American Institute of Architecture with the designation of one member of each of its 70 the indees of the Keystone Safety Legion and subsequently selected by of one member of each of its 70 the judges of the Keystone Safety chapters throughout the United States as a survey representative who serves without pay. Architectural schools, universities, and CCC architects are also aiding in the control of the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers received merchandise coupon books worth \$5.00 the careful drivers chandise coupon books worth \$5.00 or \$2.50 depending whether or not they had qualified for Safety Legion awards by having their membership ards punched during the week.

The Grand Award for the week ending February 21 is again set at \$100 and will be accompanied by at least 20 other awards worth up to \$5,00.

Award winners for the week ending Feb. 14 were announced over radio station WJTN, Jamestown, N. Y. In spite of the fact that traffic was badly tied up because of the heavy snow storm, many of the cinners found their way into Keyinto Key-and made stone gasoline stations and themselves known and received their wards promptly.

Over 1,000 new members were encolled in the Keystone Safety Legion during the past week and it is estinated that additions are being made at the rate of nearly 200 per day. Membership cards can be secured at any Keystone gasoline station displaying the Safety Legion sign withobligation. All that is required of members in order to be eligible photographed and measured is the for the weekly awards, including the Church of San Jose at San Juan, for the weekly awards, including the \$100 grand award, is that they have their membership card punched at a Keystone gasoline station once a week.

Winners in Andover and vicinity for the week ending Feb. 14, were: Victor O. Dailey, Andover; Margar-et M. Driscoil, Friendship; Dr. R. A. Kinney, Jamestown: Harry Kline, Frewsburg: Charles Sylvestee, Sin clairville.

At West Point, where administra recognize that food well choses and properly prepared plays a large part in physical fitness, a quart of milk a day is allowed each cadet
