Our Keynote:

"If There Is Not A Way, Cut A Way"

TUTE FREQUENTLY hear the comments, in disthe situations were purely European, lying in lyon, in some ways much better than silk, and unlike stain that too?" (a) cussing the European chaos, that the causes o. an age-old habit of Europe to engage in war. Such rayon in composition, statements are neither fair nor founded on fact. Many a far-sighted American on his return from gas. the First World War conflict stated there would be another war. Tho American political leaders have sought isola-

tion from Europe since 1920. Europe has not enjoyed i isolation from the United States. With our power, wealth and economic resources. Europe has been vital-i ly affected by what the United States has done at home rock crystal; others under way. and abroad. It seems only fair in these cruel days to . keep the records of the last 20 years in thought and to be realize frankly how America has affected Europe. to restore Europe. The American investments helped for building houses, boats and airplane wings. European prosperity, but in this field it also under-1 mined Europe's peace by the economic policy pursued

thruout the first post-war decade. While America was gaining from this policy it introduced a high tariff policy, selling far more than it bought, which proved to be disastrous when the crash, came, effecting Europe far worse than the United i Since 1933 the United States has sought to build a better economic basis for peace thru Mr Hull's re [

eiprocal agreements, and altho the United States has ecustantly proclaimed its vital interest in the mainten. ance of peace abroad, it has not used its superior polilitical commic and financial power to support that, However difficult the tack may seem, it should not t be lost sight of, that every right ender or should be undertaken to promote the welfare of humanity and i

thomsel es blamelers or maintain a Prarienical attit de togated these who are now paying a fearful price Actend the cause of individual liberty for manifold "We must not surrender a way of life for which ! those before us have so hardly fought. General Wash ). ington in the play, 'Valley Forge,' says, 'This liberty will look easy by and by when nobody dies to get it.'; We must not make the awful blunder of letting liberty slip thru hands grown careless from being long;

accustomed to privileges for which Europe is again! desperately struggling. Our way of life here, imperfect as it still may be, has proved itself capable mending its own ills, and, more than any system each individual." -- W. T. Grant.

The only way in which we can be sure we are errong is to carry a heavy burden without complaint. Flowers on the coffin cast no fragrance backward over life's weary way.
